What I have witnessed and experienced:

- Targeting of White individuals
- Targeting of females
- Acadian genocide (diaspora, “erasure,” historical, ethnic, and cultural cleansing)
- Targeting of military members and veterans
- Targeting of Americans
- Targeting of White females
- Targeting of female pilots
- Targeting by police
- Targeting by male stalkers
- Targeting by male voyeurs
- Targeting by males in extreme and costly circumstances, including motor vehicle accidents
- Subjugation, suppression, and modern forms of slavery
- Financial targeting, identity theft, overcharging, theft, illegal withholding of security deposits, and theft of personal belongings
- Smear campaigns, false defamation, and false rumors
- Mental illness and suicide within families
- Personal illness from toxic exposure, vaccinations, and deadly forced pesticide programs
- Targeting by traffickers and pimps
- Psychological effects of war, rapid demographic changes, and race politics
- Deprivation of housing, barriers facing younger individuals, and corruption
- Severe mental and physical abuse
- Normalized hate campaigns disguised as human rights campaigns
- Coercive control and modern slavery communication, “female manipulation campaigns,” referred to as “art”
- Genocide occurring in real time

Change is necessary for our survival.
