

Paper Bag

Please excuse me while I yell into this paper bag:

What are we “f*scists” now for protecting our elderly and our children? Do the math! Our families and communities are being invaded by a foreign war. A war that you are fully supporting.

You stupid *Jewish* anti-White *Racist* B*TCH. We welcomed you here and then you started building a foreign war against us, we were too nice. You wanted power. You took revenge until you had it.

Busted. You have killed our spirit. We no longer want to support you and others being here!

We want to keep our communities that you relentlessly attack verbally, physically or politically, safe. You are not a safe person for the American people. We want you and others who harm us to leave, so that we may go back to living life in peace. We have families to take care of.

You are hurting, children, Americans, veterans, elderly. I think that covers the USA. Figure it out? The USA wants their home sweet home back and our people to always remain in safety. We want YOU and everyone like you **out, and out forever!**
