Pandemic Mobilization of Foreign X Left by “Tax Games” & Preying on American Vulnerability

Foreign-Born Politicians Tripled

Foreign Communist & Pro-Illegal Immigration Lawyers Posing Grave Modern Wartime Risk

The “changing dynamics” within the United States and the portrayal of normal, everyday Americans with American values as “Nazi” is not by mistake. This is **foreign war** mobilization against the American people. The unfurling of the movement has been fairly easy to interpret and navigate with dedicated research.

Americans should not stop fighting this foreign war until normal American values and energy are fully restored. Until Americans can feel safe, with normal views and values again restored, and foreign enemies are outed, out of country, out of office, the war on the American people will continue.

Their foreign war and political-terrorism against the United State’s healthy citizenry *must end.*

Furthermore, all “foreign religious” councils, judges, etc. making decisions for the American people must act in the best interest and safety of the American people.

Clearly, we are facing an ideological and religious war front that is posing a severe and substantial risk to the American people.

Michigan's Muslim-majority city council approves animal sacrifice...

Jan 12, 2023 · A city near Detroit comprising mostly Muslim residents has approved the practice of animal sacrifice for religious purposes on private property.

These decisions are not being made in the best interest of the American people but, by "political, religious and ideological bias."

Yes. The 2017 Appellate Division case was decided by a five-judge panel:

- Richard T. Andrias, J.P.
- Karla Moskowitz
- Paul G. Feinman
- Judith J. Gische — wrote the majority opinion
- Ellen Gesmer — wrote the dissent

The official decision confirms all five names. New York Courts

Judicial Conduct Complaints must be filed.

It is clear that these councils and judges are acting on religious *bias*.
