

# Very Simple Expressions of “Cold War 2.0”

Russian American Revolution → Aids Russia → Aids Diversity → If Hostile → Aids Russian Warfare, Aids Mass Migrations, Russian War, and Genocide

Israel American Revolution → Aids Israel → Aids Diversity → If Hostile → Aids Israel Warfare, Aids Mass Migrations, Israel War, and Genocide

Black American Revolution → Aids Blacks → Aids Diversity → If Hostile → Aids Black Warfare, Aids Mass Migrations, Black War, and Genocide

Hispanic American Revolution → Aids Hispanics → Aids Diversity → If Hostile → Aids Hispanic Warfare, Aids Mass Migrations, Hispanic War, and Genocide

Asian American Revolution → Aids Asians → Aids Diversity → If Hostile → Aids Asian Warfare, Aids Mass Migrations, Asian War, and Genocide

Arab American Revolution → Aids Arabs → Aids Diversity → If Hostile → Aids Arab Warfare, Mass Migrations, Arab War, and Genocide

Indian American Revolution → Aids Indians → Aids Diversity → If Hostile → Aids Indian War, Aids Mass Migrations, Indian War, and Genocide

Native American [Representing Brown Populations, Not Mixed or White] Revolution → Aids Native Americans → Aids Diversity → If Hostile → Aids Mass Migrations, Native American War, and Genocide

These are the “patterned” approaches that work synergistically together, though they may represent different groups or cultures.

## **Whereas:**

American Revolution, Representing All Americans, Including White Americans, White Native Americans, or Mixed Americans → Aids All Americans → Supports Nativism → Aids Diversity → Aids Immigration → Aids Culture → If Hostile/Retaliatory → Ends Migrations, Supports Cold War or War, Mass Deportations → Ends Immigration

## **Case Analysis:**

My case analysis showcased an underground hostile war front, which included slavery, rape as a method of genocide, eugenics and war, trafficking, espionage, Kompromat, political conspiracy, organ trafficking, cyber attacks, fraud, historic invasion, the preying upon Americans, especially vulnerable Americans, attacks on our military, the alteration of vital U.S. systems to support extremist activism, altered demographics, and many other war crimes.

America suffered immeasurably. Case studies revealed American Whites were attacked at very high rates.

Black and Hispanic crime prospered over all other demographics.

Immigrants committed war crimes including drug smuggling, sex trafficking and weapons trafficking.

The Russian Cold War showed its ugly warhead through Cyber warfare and attacks against women and children, such as Kompromat campaigns that aided political organizations.

Mexican politicians were found guilty of conspiring against the United States.

Many politicians were found guilty of using their positions for illicit organized crime.

Military was infiltrated by human smugglers and organized criminal networks.

Universities were used in absurd and unethical ways, such as body parts trafficking and the leveraging of foreigners over Americans.

Activism spheres became amplifiers for Cold War activity. Yet much of the plight of modern slavery was ignored. Instead, public servants on the combat front, rescuing women and children, were attacked: Our military was viciously attacked.

Companies such as Bayer used chemicals as strong as nerve agents that harm people, causing cancer and even death, mirroring World War 2 tactics, yet “legal,” and public silencing endured.

Pandemic that mirrored Germany’s Bird Flu occurred and similar campaigns including Victory Campaigns emerged.

Communism and direct support of communist networks.

Smuggling networks became more visible through the state's help and public advocacy campaigns.

### **The United States acted rapidly upon discovery.**

We witness the death toll overseas in Russia and Ukraine, as well as between Palestine and Israel. Much of this curtailing has been paid for by the American government, and it has assuredly come at a cost.

And now we have bills to pay.

We move forward recognizing the difference between an American who holds dear to American values and a hostile domestic or foreign war front.

It is not often that Americans are charged with treason. However, rogue activists lead to rogue movements, which lead to rogue wars. I would not recommend a civil war, but if Americans are losing life and limb and paying the bill for their injuries as well, they may feel left with no choice. ***Within reason, law fare is the current choice of retaliation.***

We recommend activists stand down from the hostile and violent echo chambers of “global diversity” and the “supporting of mass immigration,” as well as the attacking of each other, and **especially stand down from attacking our military**, and recognize that advocating for the replacement of White Americans and the supporting of illegal smuggling or trafficking has no place in the American country.

If Americans, including American Whites, who represent a great majority of the country, are having to fight for their right to life and liberty, then one of two things must happen:

1. Course change.
2. War powers.

The Union of Saints believes that where slavery exists as a form of war, war powers should be used.

We feel that criminal penalties exercise these powers: Where slavery has become mainstream, not often enough.

The same applies to genocide, forced mass migrations, the pushing of rapid demographic changes, and underground fronts that actively work to harm the American public or cooperate with foreign enemies in order to create destabilization.

We firmly stand with the American people, not hostile enemies, foreign or domestic. We believe in the mitigation of war, including hybrid wars, attritions including costly political protest, proxy wars, "Cold War 2.0" and political conspiracy and sabotage where possible. We also believe in using our justice system where necessary and using our war powers where we are pushed to that point.
