

“Pig,” or “Pigging Out” Term Alternatives

A lot of people have been using the term “pig,” and so I thought I would create a list of names that rather regard those, harmful, reckless, or unethical behaviors without stripping people of their humanity, the safest approach is to describe actions, patterns, or mindsets rather than identities.

Below are **200 non-dehumanizing alternatives** that “get to the point” by calling out behavior, culture, or choices—not reducing people to animals or objects.

This list certainly helps clarify some issues we have had in recent years as well.

It is too bad, because the beautiful Souls of our Diverse culture blend so well, like blossoming flowers of the American nation, which is what God intends for the human spirit. Sadly, it is the forcing, the “pigging,” out that others do, that are creating so many problems for the rest of us.
