

US, The Soul & Creative Darkness

The soul delights in creative darkness, for it is drawn to depth!

Not to be confused with shallow, dimming, destruction. Darkness here is not evil, nor the chaos of emotions wielded to wound others—it is the fertile mystery where art, imagination, and spirit intertwine. Without the dark we would of course not see the stars! Nor the light from our healing, warming candles. We would not see the luminous moon phases.

Humans require darkness, for perfect rest & spiritual retreat!

In honoring traditions like Halloween, the dark side of the moon, and life's eerie corners, we celebrate the sacred play of shadow. These moments invite us into exploration, to feel alive, to revel in the thrill of mystery, and to embrace life in all its joy, wonder, and excitement. We invite US members to enjoy the creative, the fun, the spiritual and to enjoy the *spooky*!

Wishing all a very beautiful Autumn season,
and ***Happy Halloween.***
