

This Truth We Hold, White Advocacy & Survival

These core principles are not only a form of national and personal survival, but should never be considered morally wrong.

1. National Pride
2. Spirituality, Especially Christian or Catholic Cultural Heritage Within The American Nation
3. White Self Preservation or "Dreams," "Conscience," "Humanity," & Pursuit of Success
4. Racial Protectionism, Including Community, Family or Friends, Especially During Racial Conflict That We Have Witnessed
5. Free Speech, Especially Speech Regarding Human Rights
6. Other races do not reserve the right, nor entitlement, to speak on our behalf, about us, our person-hood, our heritage, or our culture, nor are they able to make choices on our behalf in order to leverage themselves *over* other human beings of the White race just because they are White.
7. Equality never means degrading, suppressing or harming another, especially not committing an act of gross entitlement or slavery.
8. Forms of dehumanization against ethnic White Americans is not okay or justified.
9. One does not have special privileges over another because of their race.
10. Education and its systems should never be weaponized against any White Americans.

Key Understanding: American society cannot function optimally unless *rights and responsibilities* are applied equally.

These truths we hold. We witnessed a devastating blow to the White American race in recent years, and we reconcile with this understanding now. We are deeply saddened by our losses as we actively fight off foreign wars and foreign armies, especially one that is so evil with hatred against White ethnic Americans it aims to violate their humanity or *kill* them. This hatred is so violent, it amounts to civil war activity. This is why, where White voices have been suppressed in the past, we speak openly, bravely, and courageously now. White American racial targeting is not justified or "righteous" it is not a form of activism, nor will it ever be. It is a form of warfare, one our foreign and domestic enemies so passionately seek to create. In America, we do not tolerate it, we do not accept it, and we will fight it every step of the way.

End racism and racial targeting of White Americans.
