Our determination is that left activists are attacking the United States.

Our position is that the United States has every right to protect, defend, and safeguard its citizens through whatever means necessary to establish peace, including imprisonment or the use of force.

Attacks against our country, foreign or domestic, cannot be tolerated.

We fully support our homeland defense teams and are proud of the USA for standing its ground.

We believe activists should stand down.

Where there is no accountability for activist harms, it should be understood that they are putting themselves and others in harm's way.

We Are Past the Stage of “Common Sense.”

1. If you are not legally here, deport.

2. If you are legally here and choosing to attack our military, stop.

The USA has a right to self defense.
