

Contemplation, Questions, Concerns, Extreme Ideology, Truth

- *Are certain Democratic political ideologies creating conditions that could lead to genocide, holocaust, or crimes against humanity?*
- *Where are these ideologies stemming from?*
- *“The making of ov” appears to have a great deal to do with it.*
- *We must look closely at the philanthropic bosses, major donors, political networks, and organizations fueling these campaigns.*
- *What do we already suspect?*
- *A grounded understanding is needed. Some ideologies are good, and some are harmful. Both Democrats and Republicans have their issues. However, the “trick~le, sick~le down” effect has become far too large to ignore.*
- *At this stage, many movements appear to mirror the conditions of war. Sadly, many Americans may be unknowingly participating in wartime-style efforts against themselves and their own country. They did not stop to ask enough questions.*
- *It is difficult to see the whole view when standing at the base of the mountain. Yet donor funds helped build this mountain of/ov, and it is unfortunate that Americans were not given more space to consider the important opinions, values, and concerns of one another.*
- *Whatever foreign mountain this is, we know, Americans should not have to climb it in their own country. The road should be easier, yet it is not.*
- *These ideologies have become too poisonous, too venomous, and too extreme. This is now a mountain we must all climb.*
- *Lives have been lost, and more lives may be lost. At the very least, we have the truth.*
