

“Decolonize” Movement, Modern Warfarists Against the American People and the West

They must be stopped. Think about the word they are using: they want to “remove a colony,” and replace them with whom? *Themselves*.

They are a racist, extremely prejudiced, genocidal movement, particularly targeting White people. They feel Whites are an easy target. These people could come from anywhere on the planet, move to America, join the movement, and then become active in targeting innocent, vulnerable, and naive Americans.

Currently, this is the “left plane.” They are actively participating in fourth-generation warfare, but worse, it is shaped like any warfront ever in history. They are active new colonizers who are trying to take from long-established native populations.

Acadians know this story all too well! The decolonizers (British) are coming! The decolonizers (British) are coming!

It is heartbreaking and so scary, particularly because the movement is so massive. They are a modern Holocaust. There is no denying it. These movements have raped and pillaged our communities, and it wasn’t enough. They are in active combat against American civilization. Blood is in the air.

These radical individuals, modern guerrillas, really believe that White Europeans stole from and enslaved their people. They blame modern Americans, who had nothing to do with historical “colonization.” We are talking centuries upon centuries ago. Modern Americans gave and gave and gave out of the generosity and kindness of their hearts.

Sadly, because of historical confusion, most of these individuals do not even realize that those same “historical colonizers” are within their own bloodlines. We are all a mixed and blended people today. They will even self sabotage.

They act like they are poor. Yet they are rich. Rich with American money. They are a “nonprofiting” taxpayer-enslaving and exploiting fraudscape! They stole.

They are just plain race-targeting the American people. They are the colonials! Who are these god-awful people, anyways!? We don’t recognize them, because they aren’t who they say they are. Foreign, military-aged men. ← World War Three

If they are not from here, send them home. If they are from here, hold them accountable. It is a national emergency. Tell them they are participating in an active war against their own country. Make the “decolonize movement,” the offense it is, an act of treason and an act of war.

End the modern war! Send the “decolonize” movement packing! The line is drawn.
