

Why are California Anti-Ice politicians promoting *drug clubs* to kids?

There is clear evidence of substantial drug consumption within the EDM/nightclub environment, particularly involving MDMA, cocaine, ketamine, and stimulants, with fentanyl and other opioids presenting an additional overdose risk. However, there is currently no credible statewide estimate of the quantity of drugs trafficked specifically into California's EDM clubs or festivals.

“In black, brown, and Queer clubs.” ← Made about “race & homosexuality.” Being marketed kids?

Facts: Club scenes are hubs for human trafficking, drug trafficking, extortion, organized crime, financial schemes, and the promotion of “certain underground cultures” that may enable drug addictions, particularly among youth. **They can wreak havoc on the community and destroy lives. They may particularly target younger teens, bringing them into a tragic culture of grooming, drugs, violence, abuse, and trafficking. This type of “scene” can destroy young lives, careers, and health at very early ages.**

Electronic Dance Music Month

Recognizing Dance Music as a Pillar of California's Creative Identity

In recognition of the cultural, social and economic significance of electronic dance music (EDM), the California State Legislature declared June 2025 as *Electronic Dance Music Month*.

In recognition of the cultural, social and economic significance of electronic dance music (EDM), the California State Legislature declared June 2025 as *Electronic Dance Music Month*.

Authored by Assemblymember Mark González, Assembly Concurrent Resolution (ACR) 92 honors the rich legacy and continued evolution of EDM as a powerful form of artistic expression that unites Californians across backgrounds and generations. From its roots in disco and underground club scenes to the global festivals that now define California's music landscape, EDM embodies the values of Peace, Love, Unity, and Respect (PLUR)—core principles that reflect the inclusive spirit of our state.

"EDM was born from the backrooms of Black, Brown and queer clubs. From Chicago to Detroit. From Berlin to Oakland; in California, we gave it a new rhythm, a new voice and a new stage."

"Behind every beat drop is work. This is an industry powered by stage hands, sound techs, vendors, hospitality workers, lighting crews, local artists, small businesses – real people building real opportunities across our golden state."

A Global Movement with California Connections

Electronic dance music has evolved from the underground clubs of the 1980s to become one of the most unifying global art forms of the 21st century. In California, EDM is more than just music—it is a community built on shared values of Peace, Love, Unity, and Respect (PLUR). These values create safe, inclusive spaces where individuals from all backgrounds can express themselves freely and joyfully. California has long served as a hub for EDM culture, influencing global trends and nurturing generations of DJs, producers, dancers, and fans.

Cynthia Gonzalez Calls For Territorial Gang War Against American Military Members

Conclusion:

America requires independence.

America requires **independence** from modern colonialism, modern derangement, global and domestic “Black, Brown, and Spanish” criminal succession and territorial war, fourth-generation warfare, radical political ideologies that promote modern war, including promoting systems, people, avenues, vehicles, or “venues” that may be used for drug trafficking, human trafficking, human harms, or any other tactics involving territorial war promotion, including components of WW3, and independence from cartels, mafias, corrupt and criminal politicians, and traffickers.

Whether they are mayors, governors, club owners, restaurant owners, or school superintendents, America requires safety from all who undermine their right to safety, they require freedom from global terror, foreign war, and territorial violence, including the use of drugs, homeless encampment neglect, foreign political leverage, population genocide via weaponized mass migration, medical negligence, or other harms. It has become very evident who is promoting warfare-level violence against the United States.

We require cultural separation, freedom, safety and independence.
