Position of the Union of Saints

The **Union of Saints** affirms its support for American justice, the rule of law, and the protection of the American people and their cultural heritage.

At the same time, the Union of Saints expresses **friendship toward immigrants** and supports the dignity, autonomy, safety, and fair treatment of legal, honorable and loyal immigrant communities.

The Union of Saints currently opposes certain **DEI (Diversity, Equity, and Inclusion) initiatives** due to concerns regarding program misuse, discriminatory outcomes, political manipulation, and the potential for exploitation by hostile foreign actors. The organization believes that these concerns warrant careful review and reform to ensure that policies do not harm American citizens or undermine national stability.
