

No Longer American Assimilation (Enclaves and Nation Building)

Source: <https://michaelpatrickleahy.com/immigration-expert-jessica-vaughan-migrants-are-not-being-assimilated-to-american-culture-as-they-once-were/>

Union of Saints areas of concern: Fraud, terrorism, treason, organized crime, political fronts, trafficking, American targeting, kidnapping, and American disappearances.

Despite what the “Bund” and foreign immigration lawyer organizations may claim, immigrant and first-born crime data is not data that has been tracked or isolated within the USA. The claim that immigrants commit less crime and make our country safer is the conspiracy of our time. It is imperative that we enact laws allowing us to track this data and that we allow authorities to do so. As many are aware, overly boisterous activists are fighting to keep police out of immigration enforcement. For a myriad of reasons, this is dangerous to the American people. American anti-ICE activists themselves are in an arena that is constantly being targeted, and they do not even realize it. Please consider this understanding of crime data collection and help us enact laws that allow police to serve at their fullest capacity to protect the American people.
