White America, Where Culture and Population Replacement Is Experienced

Contrary to new popular belief promoted by extreme anarchists and extreme leftists, Whites are not vacuums for hatred.

We carry this weight, and we have for a long time. **Until now**, many of us are collectively waking up to what true humanity is. True humanity does not solely apply to all other races and cultures within the United States. It must apply to White Americans.

For those Americans who were born in the 1980s or prior, we have witnessed these seismic cultural and population shifts firsthand. We now experience cultural dissonance, and a deep sadness for the loss of life and liberty we have endured. Many of us have experienced horrific forms of racism, targeting, and even genocide, and we stayed quiet, humble, still loyal to America's All. Not just as a White population, but for everyone, always putting ourselves last.

Today, we are left with no choice but to take a stand for our rights, as belligerent activists target, sabotage, and even kill us. Sadly, those who are true representatives of our flag, and of our spirit, our protectors, are even more targeted, vilified, smear-campaigned, and are suffering violent, murderous attacks.

And so I step in bravely, as best as I can, with the innocence of my heart for the American people. I remember our beautiful, kind, and loving culture, one where we felt safe, connected, and where the energy was healthy, we were a community, as God intended.

I stand before you as a witness to racism from the other side, and I am here to say **no**.

Humanity must include anthropological Americans, and very importantly, it must include Anthropological White Americans.

No more tolerance of White hate or targeting.

We say no to the broken "ARC," that **evil racists** have been working so fervently to "bend," and to the stage of no return. US is here to show the ARCs we rise above, our covenant with god.

For All, who feel they have been targeted, please know that *your humanity matters*.

Modern, politically grounded, identity-neutral analytical vocabulary used to describe **contemporary patterns of white group-based targeting, exclusion, and civic breakdown.**
