

“Crimmigration” Lawyers

If they are abusing people, doxing others, fueling political conflict, supporting crimes against humanity, exploiting the legal system, committing acts of fraud, or harming the American people, especially our public servants, then they do not deserve to hold the title of lawyer or judge.

- Immigration activists, lawyers, and judges have greatly betrayed the public's trust, actively worked to suppress the American voice, and persuaded violent extremists and anarchists to damage our ability to safeguard ourselves.
- They are supporting foreign enemies, fueling political conflict, and creating national security risks.
- We do not remain friends with those who actively target us.
- We are divided, and our defenses are up.
- This experience is nothing short of treason against the American people.
- For these reasons, I fully support this administration's efforts to address, discipline, try, and sentence, where necessary, all lawyers acting against the American people.
- Whether they are promoting foreign war, aiding and abetting crime or violence, smuggling, trafficking, or targeting public servants, crimes committed against U.S. citizens, whether in uniform or civilian, must be addressed and face appropriate legal action and the full consequences of the law.
