

Humanity-Needs Separation

I am an American White woman whose family is in the United States due to the Grand Derangement. We are Native French Acadian-Canadian and Native Northern American. I am calling for humanity-needs separatism.

I, as a White woman, have endured racial and female targeting, veteran targeting, modern exploitation, and abuse.

I am calling for separatism from anti-American or anti-Canadian Catholic heritage activists, any anti-White racial activists, any form of anti-straight activism, particularly against children, any anti-American activists, any pro-mass-instrumental-migration and anti-Native advocates, anti-White abusers, any pro-slavery and anti-American freedom advocates, including communists, revenge campaigners, voyeurs, blackmailers, exploiters, fraudsters, WW3 warfarists, foreign enemies, territorial activists, and any anti-woman activists.

I am a White Native American Acadian Heritage woman.

I support my family, community, heritage, culture, society, and country.

Examples of Humanity-Needs Separatism

Obama intrusive Catholic investigations/policy, ADL, ACLU, SPLC, all Hispanic mass-migration organizations, anti-American pro-immigrant-rights organizations, all abolition campaigners, anti-police, anti-ICE/BPD/DHS, anti-military abolition campaigns, any modern pro-slavery or pro-WW3 advocates, any anti-White campaigners, and any female abusers.

I am calling for Humanity-Needs Separatism in order to maintain safety, civil rights, peace, and harmony.

This is an active petition and war cry calling for Northern separatism from any people, organizations, or associations that target my race, sex, religion, heritage, culture, society, or natural demographic and population composition.

The Francophone Acadian and Celtic communities are already marginalized minorities. We will not stand by while facing racial targeting, modern forms of war, foreign or domestic enemy infiltration, crimes against humanity, blood-hungry racism, evil against our Native people, or acts of genocide disguised as “diversity initiatives.”

This is a Humanity-Needs Separatism active petition and war cry for the Northern Francophone and Acadian-Celtic population in the Northern New England and Canadian region.
