

We can see why they targeted Whites so adamantly during these mass instrumental migration campaigns. Many Whites were unaware. We're learning. *The truth is shocking.*

They are a predominantly "Black" movement. → Black and Brown "Power" → "Communist" → Bolshevik.

I never knew a group so wicked toward their fellow Americans.

*I guess they made "history." Historic atrocities, historic violence and harms, historic slavery, historic crimes against American humanity.*

You can hold a sign, but can you *be the change*? Doesn't seem like it.

- These are the movements that are actively attempting to open our borders, alter our culture and racial demographics, and remove our protections. They seek taxpayer exploitation and even reparations. Many are not from here.
- They actively target White people via relentless race campaigns. There is little humanity shown toward White communities, particularly White refugees, which they stand so adamantly against. God forbid we help White people?
  - Not long after White refugee resettlement, **the killings endured.**
  - This is not about equality, and this has been made very, very clear.
- Historic and catastrophic harms have been caused along the way, including deaths by gun violence and arson.
  - This is American population genocide unfurling through a foreign and domestic movement.
- These movements are a fourth-generation racial war front against the American people. Will they stop? **No, of course not. They feed on targeting and replacing White communities; it's what sustains them.**
  - **BIPOC-related funding: \$180 billion annually.**
- It's a business based on White exploitation and manufactured race conflict. A very corrupted one, at that.
- The Government Accountability Office estimated that fraud caused \$233 billion to \$521 billion in annual losses to the American people.
  - Immigration surge cost \$9.2 billion in 2021 alone.
- Hundreds of thousands of American lives lost. Tens of thousands annually; CDC estimated 38,084 in 2025.
