

“Welcoming America” Movement — Timeline

IT’S TIME TO LET GO.

Just a word: Americans are already here, and this campaign never asked for our consent. It just moved in and started taking over our local politics.

Americans don’t owe foreign cultures our home front, don’t owe “foreign assimilation or diversity initiatives,” or owe our taxpayer dollars to any foreign person.

David Lubell also founded the immigrant and refugee coalition and Welcoming International.

Since 1903, the Bolshevik Party sabotaged Americans, stole American territory, and did its best to change the values and cultural systems within the USA.

*“It’s very special. It’s to me a recognition of the value of immigration and justice for immigrants in the **Jewish community**,” Lubell said. **“We’re immigrants. We’re refugees.”***

- **Mass cultural replacement and forced assimilation are crimes against humanity.**

- **Our country experienced historic harms by “racial justice activists, Jewish activists, left and radical communists.”**
- **The worst invasion in US history has cost US taxpayers trillions.**
- **Trafficking of American’s children and women soared to the worst levels in global history. 50,000 reported women and children are trafficked in the US annually.**
- **Homelessness among Americans doubled in many cities since Welcoming America, particularly among White and veteran populations, who are now targeted by foreigners relentlessly.**
- **Fentanyl deaths soared. Since Welcoming America was founded in 2009, more than 466,000 U.S. overdose deaths have involved synthetic opioids, a category that includes fentanyl.**
- **Abolish ICE campaigns are strategic and have cost Americans tens of millions.**
- **The average American woman makes \$40,000, yet her taxpayer dollars will be exploited to support “refugees” and their families. Meanwhile, she cannot afford children comfortably. Many “refugees” who actively target Americans in forms of modern war are essentially stealing American territory from REAL AMERICANS.**

- It is sickening what the Jewish and foreign campaigns have done to the American people.
- Scams against the American people, particularly vulnerable populations skyrocketed.
- Just the tip of the ICEberg.
- **2004:** The first known “welcoming” campaign, **Welcoming Iowa**, took place. ([State of Welcoming Report](#))
- **2006:** The **Welcoming Tennessee Initiative** was launched after earlier organizing in Tennessee. ([State of Welcoming Report](#))
- **2008:** A **national welcoming campaign** was organized with support from private foundations, bringing similar immigrant-integration initiatives together nationally. ([Wiley Online Library](#))
- **2009:** **Welcoming America itself was founded** by David Lubell as a national organization supporting this emerging network. ([State of Welcoming Report](#))
- **2012:** **Welcoming Week** was launched by Welcoming America as an annual national campaign. ([The Global Compact on Refugees | UNHCR](#))
- **2015:** The Obama administration’s **Building Welcoming Communities Campaign** was launched through the White House Task Force on New Americans, in partnership with Welcoming America. ([White House](#))

So, **2009** is the founding date for **Welcoming America**, but the broader “welcoming” campaign movement predates it, with documented roots going back to **2004**, and organizing in Tennessee beginning earlier in the 2000s.
