Ace of Base

My sign

“I saw a sign” that said, “Vote American, not Democrat!”

And I was in agreement.

Not *safe*.

The Telegraph

The clear and present danger of the Democrats

Americans should not have to scramble for their guns in order to protect their home, families or “base.”

We have a *military* for that. The same military the Democrats seek to dismantle, to *fight*?

Not *smart*.

Democrat turned real world *enemy*:

- The world is not an imaginary playground for Democrats dressed as unicorns in kaffiyehs to disarm our military.
- Your communist sign is an illness. A “sick” ness, and the enemy loves to see you sick.
- The outside world is holding a sign for YOU.
- They call it a “Sarkha.”

- How many wars does it take?
  You get the choice.
- Hold your base, or hold theirs.

Your *sign.*
We do not hold our base for our enemies.
You want out? *We’ll show you the sign to the door.*
