White House “France Is Burning”

WEEKLY BRIEFING • OCTOBER 19–25, 2026

France Is Burning: President Trump Warns the World to Close Its Borders as Riots, Looting, and Fires Sweep France — Plus a New Order to Lower Housing Costs and a 1% Reward for Reporting Fraud

France is burning. What began in September as protests has spiraled into nationwide rioting and looting. In a single day, **550,000 people took to the streets** in 110 marches across the country, according to France's Interior Ministry. Hundreds of stores have been looted in Paris alone, government buildings have been set on fire, the historic city hall in Limoges collapsed, and more than 2,000 people were arrested in a single weekend.

President Trump called it **“a full-on revolution”** driven by uncontrolled immigration, warning, “They have to straighten out their act. Otherwise there won't be a Europe left.” His message: “Close your Borders and take control, before it is too late!”

At home, President Trump signed an Executive Order to **lower the cost of owning a home**. It creates a pilot program to cancel borrowers' mortgage insurance premiums once they've built enough equity, makes permanent a program that lets homeowners refinance without costly title insurance, and directs the Departments of Agriculture and Veterans Affairs to **lower interest rates on their home loans**.

President Trump and Vice President Vance also launched the **Fraud Whistleblower Incentive Program**. Americans who report fraud at **fraud.gov** can earn a **1% commission** on the fraud they help uncover, the President announced.

First Lady Melania Trump secured a **ceasefire between Russia and Ukraine localized to Oleshky**, and the President launched the **America First Seafood Strategy and Seafood.gov** to support American fishermen.

The President also strengthened American energy and industry: a **Defense Production Act determination to expand domestic oil production and refining**, new action on imported wind turbines, and updated tariffs on Canadian products. A new analysis found his pro-growth policies are fueling a **manufacturing resurgence**.

President Trump signed **12 bills into law** and traveled to Kansas, North Carolina, South Carolina, Iowa, and Florida, where the White House highlighted his record of results for each state. And with **early voting underway** in many states, now is the time to make your plan to vote.
