

Case Summary, White American Victim  
Witnessing Genocide, Slavery, The Foreign  
Cost

Post Pandemic: “New Culture Norms”  
Experienced As Shock, Cultural Dissonance,  
Deep Hurt, Feeling **Hollow**

*Please Protect White Americans Now Just  
20% of **Our Territory***

***Sorry Newcomers.  
Americans Deserve Better.***

**All she wanted was  
for the world to stop  
hurting.**

**They filmed her  
against her will.**

**She didn't know they  
were organized  
criminals.**

**Filming Without Consent Is Abuse**

**They blamed her.**

**They didn't  
understand.**

**She lost everything.**

**She saw Johns and  
traffickers at hotels.**

**A John attempted to  
recruit her by her  
vehicle.**

**Later her luggage  
was stolen.**

**Running where she  
has for years, she  
saw a woman who  
looked very angry at  
her.**

**Something changed.**

**Who was this?**

**Confronted again by  
different angry  
women.**

**They looked so  
hateful.**

**They wanted her to  
be envious of them,  
but she was just  
trying to exercise.**

**She noticed  
different art around  
the city.**

**People were really  
mean and angry  
towards her.**

**Foreigners were  
having a meeting at a  
hotel.**

**She was cut in line  
by a male. He asked  
if he could go ahead.**

**She of course said  
yes, but was  
intimidated by a  
woman.**

**The woman  
physically  
threatened her.**

**Driving she saw box  
trucks with  
foreigners driving.**

**Things changed a lot  
in just a few years.**

**She noticed a foul  
smell and water  
leaking from the  
truck in front of her.**

**She was having  
trouble breathing at  
home.**

**She was in a lot of  
pain.**

**She read pesticides  
killed nearby  
residents.**

**She moved to another state.**

**The hotel staff was very nice.**

**She noticed there were not many white women anymore.**

**She went to the movies.**

**She was looking forward to enjoying a night out as she works a lot.**

**She noticed a woman staring aggressively.**

**Driving to her usual parking spot an unfamiliar woman entered the lane where she was.**

**The woman expected her to move even though it was a single lane.**

**The woman yelled racial slurs at her.**

While grocery shopping she noticed she was the only white woman.

She stopped to pick up water.

A woman ordered her impolitely to, "GO!"

She was alerted of a machete attack nearby.

Just recently she read the news, a child was killed by two immigrants with a machete.

The next day someone was impaled by a metal rod to the skull.

She noticed the homeless population was worse than other places.

It seemed foreign families were thriving.

There was a lot of trash, the roads were not taken care of.

She reflected on the missing children.

She remembered what life was like here 15 years ago.

She felt grateful for those working to save US from foreigner harms.

A systematic campaign to impose cultural replacement through violence, force and coercion, followed by retaliatory attacks on civilians and religious institutions in response to resistance, constitutes persecution and satisfies the legal threshold for crimes against humanity under international law.

D. Cowdrey

*We recognize the abuse against Americans.*

*We see the campaigns.*

*We experience the harm and the violences in our personal lives.*

Thank you, police and military for your service.

We will never forget the America we had.

We join you in the fight to keep Americans safe.
