

*Let me know when you see it.*

At least fifty Mexican politicians in the US were kicked out and had their visas revoked because they were working with the cartel. [WW3] Activists, Communists, Cartel, Politicians – “Bolshevik” (Russian/Mexican/Chinese Foreign Territorial War) Unfortunately, they have targeted White Americans, public servants, though this is often not discussed in the news. It’s taboo, even though it’s the truth. Cost us trillions. The news is very much owned and tailored by Left and “Bund.” Very sad reality Americans and others are facing today. Too many “components,” acknowledged to list here.
