SOS | SLAVERY & WAR AWARENESS

Modern Slavery · Human Trafficking · Protection · Public Awareness

There are millions more slaves in the USA today than there were before the civil war. Tens of thousands of adults and children are forced into slavery in the US every year. They estimate 15,000 to 50,000 women and children forced into sexual slavery annually in the U.S. The majority are White victims, 66%-85%. A brutal war front that most of us are still working to understand. Still our reality is denied.

Please be aware. Please be safe. Protect one another.
