

Incoming Class Hispanic Women – Openly Hostile Psych Wars Against White Women/Any Americans

To the “incoming class” of Hispanic women who have been outwardly hostile toward white women and others, and have this expectation that the world should be served to them on a silver platter:

Welcome to America.

American women/Americans were not born yesterday.

Americans work hard, are humble people, and have their own livelihoods to consider, and frankly, don't have time.

You have caused harm.

And now, we are speaking up.

If you are openly expressing racism, discrimination, microaggressions, bullying, hostility, hatred, disdain, or casting ill will toward the American people, we are going to address it.

The aggressive psychological tactics, hostile behavior, and underlying evils must end.

We will call out racism and bigotry wherever it shows *its ugly face*.

The United States has a long-standing relationship with Hispanic communities. Many individuals have built meaningful lives here, with families, careers, friendships, and strong connections both within this country and abroad.

Hostility and harm toward others have no place here.

We recognize that the Hispanic population has grown, but growth must never be used as a justification for harming others.

We also recognize that tensions, misunderstandings, and conflicts can arise, but they must be addressed lawfully and constructively.

Americans have the right to reject hostility, division, and any form of aggression, whether overt or subtle.

Whether born in this country or newly arrived, racism will not be tolerated.

The American people have long been clear in their opposition to racism, hate crimes and discrimination.

We will call it as we see it:

- “Death stares or hostile gazes directed at unsuspecting white/other American men or women”
- “Throwing items down at checkout (repeated behavior)”
- “Bullying”

- Territorial Marketing, Activism Schemes
- War Pressure, War Attrition
- Smuggling
- Crime Rings
- Organized Hostile “Cultural” Parades
- “Skulls” As Violent Anti American Art
- Hoisting Foreign Flags As “Territory Grab”
- Violence: Knives, Machetes, Guns
- Kidnapping
- Motor Vehicle Aggression: Honking, Taking Spaces, Hit & Runs
- Verbal Violences
- Bizarre Domination Rites
- Altering “Space,” Creating Discomfort for Americans
- Drug Smuggling
- Psych War Behaviors
- Political “Musical Chairs,” Supporting Foreign Countries
- Spying, Espionage, Blackmail Or Other Crimes
- Terrorism
- War Crimes
- Discrimination (Refusing to Hire Americans)
- “Attempting to Boss Americans around”

“So you better get out of my way now.”

Sincerely,

Retired Air Force Lady Not Tolerating The BS In The USA
