AI Assisted Casenotes:

- If the “New Clan” has their way, Christmas bells go away.
- Creation of the Arab Empire. “Islam spreads.” “Makkah only for Muslim.”
- Jeddah, Makkah, not the most inclusive environment. You must convert to Islam. Sharia is the basic law of their kingdom.
- It’s not a futon, but an Ottoman. “Territorial evolution of the Ottoman Empire.” Taking notes.
- “Oh look it’s a Strawberry.” Strawberry Hill, Russia.
- Ukraine and Russia are losing 5,000 - 6,000 soldiers (people) every week. Praying for all, for families and soldiers on both sides of the war. *We are mourning the losses of our friends overseas. We wish we could take all of the pain and suffering away from this world. We wish that war did not exist. We are praying for peace on all sides.*
- *We have some hurdles ahead.*
- Shaven women. Worth understanding social evils: French women were treated horrifically by the Soviets during World War II. Women were branded and endured many other abuses.
- “The Shaved Women of Chartes.” Please see images below.
- It continues, unfortunately we have found clear corruption within the medical industry organ trade: “HRSA examined 351 cases where organ donation was authorized but not completed, identifying issues. Of those, 73 patients showed neurological signs incompatible with organ donation, and 28 may not have been deceased when procurement began,” Stuckey explains. “Expand the definition of death for more organs.” “Promote suicide to Americans, for their organs.” Out of New York, a “diverse,” cardiology “body.”
- Soviet atrocities committed against prisoners of war during World War II.
- Propaganda, a hell of a drug.
- They did not tell us this part of history, but it seems some “took the win,” in the spotlight. The largest mass rape in history, in the form of “revenge.” Soviets attacked German civilians. I hope that others will make more sense of this all as we face a very grim present reality.
- So what exactly are we dealing with here? Why are they mass migrating a hundred million people to the USA? *Resist foreign invasion.*
- Russia and the Crimean war. Russia similarities to the Ottoman Empire.
- Military Entrance Processing Systems “MEPS RACE SUIT:” Black Migrations, Black Eugenics, Black Purity, Black Supremacy, Black Rituals (Dominance, Subjugation, Violence, Force), Black Aryanism (Revenge, Flip, Master Race, King, Queen), Black Culture, Black Equity, Black Succession, Black Umbrella, Black Imagination, Black T Cross or Religion. What’s in a “hat” anyways? What’s in a culture anyways?
- Japan’s attack on Pearl Harbor. As much as we love our “foreign,” American diversity, there is a lot we can learn from history. There is a lot to learn about, “US,” especially as invaders and their allies have certainly encroached our territory. Americans want to keep their home, home.
- Through the FOG: Predicting war patterns.
- Protests, “Sharia is the only solution.” 50-60% community believe in Sharia law. “Keep our children pure.” “Trump stay out of Dearborn.” Territory battles post invasion.
- PAWN: Politically Active “War Nun” PAWN vs. US NUN - American Military Chaplain, Sister or Nun PAWNS are kind of like US, but not quite “American.” I am an “American Spiritual.” I am a Native of this Country, the USA. My cultural upbringing was predominantly American, with a Catholic and Christian heritage; however, I was raised to be very free, liberated, and tolerant of many cultures, with friends of all colors. I also come with borders, boundaries, and a very strong military background. I was raised pledging allegiance to my flag, celebrating my country by attending All-American parades, and honoring and supporting our troops. When I grew up, I became a military soldier for the country I love and am a spirit of. So, when others come to this land, with a different culture, a different flag, and different political and military goals that hurt my people, well, that does not quite sit right with me. It is kind of a problem for an American-spirited and American-cultured person. Religion is culture, temples are kingdoms. It is all good, until it is territorial~ and the territory is your American Spirit. It is worrisome ~ when the PAWN is not our PAWN.
- Saul Alinsky
- “Recover:” Military term. What does this word, “recover,” mean to us during global warfare and foreign invasions?

- Processing a nightmare. We are in it. It was a tiring process of research and I cannot count the amount of tearful breakdowns I have had moving through this all. I have a paper to write today, I am doing my best to focus-- but yes, we are there, a complete repeat of history. Pray for Americans please. No we are not "Aryans," we are simply ...Americans... a complete repeat of history.
- ナポリタン It's a little confusing. Like Ketchup on Spaghetti: Napolitan.
- Put on God's armor. Conversational evils: Not everyone is going to make the "bar."
- Kind of like spaghetti, confusing, especially when mixed with ketchup, but Axis. Wars are made of allies and axis. Military and civilians.
- Many may not realize this but 50 to 55 million civilians died during World War II. More civilians died than members of the military. "Casualties resulted from military actions, genocide, famine, and disease. The total number of deaths is estimated to be between 70 and 85 million."
- "Not the best time to be serfing boys." No boys, it's not. Our girls are well aware of what happened back there. Blood on the carpet, we know. Now our girls are at the shooting range, practicing their best shot. That's how far we pushed her. She signed up for the war. In the US, it's an impressive, 50,000 bonus to practice "shooting your shot," with the front, and we 100% support her. No, now is not the time to be serfing boys.
- The Russian, Mexican and Chinese Army from *within* the United States joins forces with others to harm us. It is considered, "irregular warfare," but it is quite strategic. They attack both sides, Democrats and Republicans. They attack women and men. They especially attack our vulnerable. *Resist foreign invasion.* This is why it is important to stick together to pursue the mission, over all else, which is to protect American citizens. America is our #1 priority.
- Rand article offers clarity. Support your All-American veteran and military community and they'll support you.
- Premier Bank card fees very high: A little digging. Sioux Falls, SD. I hope Americans find their way home.
- Extra, Extra ~ Fruit cake makes a return to the All-American kitchen! Instead of bacon and eggs, Americans wake up to Edward Bernays, and opt out. Fruit cake & tea. 🇪🇺 🇺🇸 🇯🇵
- War Animals: Understanding our past can help us understand our present. I love animals, so this part of war is really hurtful. Animals are innocent babies; Many intelligent beings are slaughtered prior to six months of age. Wars are energetic. They move through our actions. Predators, especially warfarists, may use our actions as channels for exploitation. Positive or negative. So how do warfarists use animals, our love for animals, or our consumption, as forms of weaponry? In war, animals are used much like "pawns," they are also "war nuns." Innocent and unknowing pawns, tools for war. Wars are very complicated and can be difficult to understand. So let's drive these understandings home and dig a little deeper. Animals have been used in warfare since ancient times. Here are a few examples of how animals are used in warfare: Bio Warfare: "Uncontrolled animal populations and unsanitary living conditions can favor the widespread of parasites and disease." Psychological Torture: In Russian prison systems for example, prison guards may kill the prisoner's pets as a form of psychological torture. Gas Chambers: In Germany, Hitler used gas chambers as a form of weaponry similar to those used on pigs. Dogs: Dogs have been used to detect drugs, bombs, and people. Mules: Mules are often used to carry heavy equipment. Pigeons: Pigeons have been used for communication. Birds: Birds have been used for surveillance. Rhinos: Even rhinos have been used to charge enemies. Do you see how the use of animals may be used in present day warfare? ...
