

What Does "Decentering Whiteness Mean"?

Decentering Whiteness is the intentional effort to shift the focus, power, and privilege away from White

Source: <https://www.swcucc.org/understanding-decentering-whiteness>

It means dehumanizing White people, excluding Whites, and hurting Whites in order to "be the center."

It is the literal movement of war and racial attacks against vulnerable White American people. Most are completely unaware and are genuine and altruistic. Yet they will be targeted anyways because of their race.

They may be thwarted from schools, jobs or other places, simply so that others may take their space.

In Mexico, do we "decenter" Mexicans? In America do we "decenter" Americans? Get a clue. It's civil warfare.

What it means is that White energy, soul, and spirit will be attacked. Whites are no longer a human being but an object to overcome. They are nothing more than competition. They are nothing more than the color of their skin, one that should never be respected, never where the power should be, and never be where there should be any sort of so-called "privilege." It's human slavery in a package called "Decentering Whiteness." These movements are evil, racist, cruel, hateful, and abusive at their core.

Take their names. Write their names in books. Let the world know who the real racists and violators of American culture and society are. This is their race war, not ours. But if they continue to attack the American people with their evil race war, they should NEVER hold any energy in any "White" space, ever. They need to be confronted, held accountable, and assuredly LEFT OUT of the program.

Leave Black and Brown Racists OUT.

There can be no tolerance for racial abuse and civil warfare at this level. These are nothing more than war fronts and dehumanization campaigns given "academic" labels. It's an ideological disease that targets and vilifies one race and one race alone, the White race.

If you don't like it, don't tread, and **KEEP OUT**.

End the civil race war against White Americans. End the mass dehumanization campaigns. Do not trespass on the human spirit.
