

Americans Need Their Time and Space

America is overcrowded! We are at capacity!

Americans would like their safety, privacy and space back. Currently our energy, time and life is being **exploited** by far too many foreigners! We need our space back, *please and thank you*.

Can't take a hint? You are in our home, not yours. We tend to get *icey*! Have you ever experienced an intruder in your home you didn't want there? Cruel world, but that's **reality**. **No trespassers welcome.**

Americans said "no" now it is time to go, go, go~!
