

Israelification (Russification), Activist Extremist Jewification

These activists will replace, Americans. Just ask Soros: 500,000 immigrants to Maine, double the population of some Maine cities. It politically overhauls the native populations. It is the supporting of non-native citizens over Americans, like Mamdani (2018) to forced immigration and civil war mayhem.

→ It seeks to replace the Native White population, *very clearly*.

Jewish extremist activists are posing a threat to Americans. They will even tell you that *themselves*. If it were just one component of war, perhaps it would not be such a big deal. However, Jewish activists have assuredly strategized all the components necessary to form a full blown cold war against the American people and a hot war overseas.

- From mass instrumental migration;
- To the targeting of our police, military and national security
- To the exploitation of Guatemalans and other immigrants
- To "rocking the boat" via racial conflict – push, pull cold war dynamics
- To the blaming the American people for their own *shortcomings* and lack of accountability
- To eugenics campaigns
- To bizarre underground tunnels & bloody beds
- To the war in Palestine
- To organ trafficking
- To fraud
- To American taxpayer money (millions upon millions) to Israeli and Jewish activists as well as Arab activists
- To the support of new waves of foreign activists and politicians who promote communism and American slavery
- To mass surveillance, forced filming and voyeurism
- To targeting women and assaulting them, to threatening rape
- To rape
- To using trafficking as a form of political funding
- To the Russian war on Ukraine
- To psychological war campaigns

Israelification (Russification), Activist Extremist Jewification

The extremism is clear on both the right and the left wings. The chill of WW2 trails closely. This time? Americans shake their heads at a *different* kind of party.

Today, we even worry about Zyklon-B's mutation in America by Russian allied forces.

The American people, and the rest of the world, are sick and tired of the civil and global war that the Jewish activists [L+S-L] are creating. Whether they support Israel, Palestine, Russia, or *themselves*, we are tired of Jewish extremist activism and its promotion of genocide, holocaust, and cold war on the American home front. It particularly targets Whites, and seeks to "bend the arc" of it's population in many disturbing ways including mass instrumental migrations.

The radicals of this extremist Jewish Power movement, blame the natives who say "no" and choose to stick up for their communities. It is the entitlement and the "snakish" nature of these extremist activists. It is the blame-shifting, the gaslighting, and the labeling of Americans with disturbing names. It is the revenge hate with cold war action, and then the claiming that normal-thinking, healthy-minded Americans who see through the chaos that extremist Jewish activists are creating for the American people as "anti-Semitic." We have had enough.

It isn't your American Jewish family who did their everything to support their families. The beautiful Jewish families who firmly believe also in American values, and shared commitment to the protection of our people. It is not the Jewish immigrants who assimilated and became *American* themselves, with love in their hearts for the American people, and understand, as well, that all American people are together in their fight to safeguard and secure our country. This is not about race, it is about protecting American culture, traditions and people.

It is the extremist activists who just could not take the word **no**. Yes, these activists are posing a threat. No, this is not a conspiracy. Yes, there is a likelihood that many have Russian interests during the Russian-Ukraine war. Yes, many of these activists seek revenge and are willing to take cold war style action against American citizens in order to see through it that they hold supremacy over Americans, particularly White Americans. They behave like social chameleons, whichever race they so choose that will conveniently leverage *them*. It conjoins with everyone but White Americans, who they claim are supremacists, because "Whites" are utilized as the token enemy.

It is easy to use race as war strategy if the American people are unable to see through it. It is secret, manipulative and covert in nature. It dances when Americans are beat down and heartbroken, it seeks their pity and yet their attrition. Most of all, it aims to create race war, and rock the boat we call the American nation. It is extreme, it is ideological and it is *genocidal* in nature.

This is not your average, beautiful and fully assimilated American Jewish family. It lives and thrives within politics and seeks division wherever it can create it.
