Slavery Wars

- *Where there is a lack of autonomy, there is slavery, where there is slavery, there is war.*
- *Where there is sabotage, set ups, and subjugation, there is slavery, where there is slavery, there is war.*
- *Where there is aggression, abuse and violence, there is slavery, where there is slavery there is war.*
- *Where there is targeting, thievery and successful predators, there is slavery, where there is slavery, there is war.*

United States suffered abuse to the stage of a *population collapse*.

We recognize this as a global and domestic war, serial soft targeting leading to attrition, and in the *forms of slavery*.
