

Alexandria-Ocasio 🐱 DSA

She could have been advocating for Puerto Ricans in Puerto Rico, yet we wouldn't even trust her advocacy there. Imagine how Puerto Ricans would feel about mass instrumental migration and forced modern colonialism on their island? Changing the fabric of their culture? The same as anyone else. We all feel the same way: "Stop forcing us to accept crimes against humanity. Stop forcing us to change!"

She is native to no place, and yet she claims she is an Indigenous American. She is a first-generation modern colonial. Even Puerto Rico would say to her, "Stay over there!"

We will not refute that there was a time when we accepted Alexandria Ocasio. We welcomed her.

Today, however, it has become clear that she does not advocate for the American people or the Puerto Rican people either. In fact, the opposite is true. She has become a voice that harms and persuades atrocities against us all. She is persuading fourth-generational warfare against us and our beautiful islands that **WE DO NOT WANT TO CHANGE.**
