

## Catch and Release Policies, Union of Saints

### Policies That Place American Lives At Risk

The Union of Saints affirms its support for measures aligned with the Republican Party regarding immigration enforcement and public safety. We hold the position that “catch and release” policies present serious risks to the safety and stability of American communities. Furthermore, we maintain a firm opposition to illegal immigration, as we believe that, in today’s wartime environment, it can pose a heightened threat to both the security and the cultural and community spirit of the United States. Our stance is grounded in a commitment to protecting the well-being, order, and integrity of the nation and its people.
