

## **“Shame, Shame, Shame!”**

The Nazi regime systematically used shame as a tool of oppression, social control, and propaganda between 1933 and 1945.

Public humiliation was employed to marginalize "**Americans**," and other victims, enforce "**mass genocidal migration**," and intimidate the "**American public**" into compliance.

America has a right to say no to historic invasion, slavery and guerrilla assembly. Forcing mass migration is a **Crime Against Humanity** being committed against the American people.

Territorial Violence → Guerrilla Assembly → Genocide

***All wars operate this way.***

***Violence/Corruption → Invasion → Territory Control***

***Shame Politics Constitute: Coercion and Intimidation.***

***Armed Protests Constitute: Threat, Intimidation, Force.***

***What is the difference between an armed robbery and an armed protest?***

***What are they taking? Property? Land? Territory? American rights? American freedoms? American safety? American dignity?***

***Americans Said No.***
