

Dear Modern War,

Left Communists, Foreign and Domestic, are Israel to Palestine. Russia to Ukraine. British Crown to Native. They fail to see the United States as deserving of protection, of rights, humanity, of love and kindness. Their hate for Americans, their racism, and their ignorance supersede their judgment, to the point that they would be willing to harm the United States and its original people in any way they see fit in order to make room for modern colonialization, in which millions upon millions of “anti Americans” may make a comfortable home while Americans are hurt, left to suffer, and displaced.

At the end of 1939, Palestine’s Jewish population was approximately 445,000.

- By the end of 1945, it was estimated at 592,000 by the Jewish Agency.
- The Jewish Agency’s estimate attributed approximately 313,400 people to net immigration over the period since 1931, not just during World War II.

In the United States, there were **15.8** million unauthorized immigrants, according to the Migration Policy Institute’s estimate for mid-2024, published in July 2026.

Just the unauthorized population alone is 50.3 times larger than that of immigrants to Palestine.

Population

- First generation — foreign-born residents: 50.2 million in 2024, according to Census.gov.
- First and second generations combined: 97.2 million in 2024, according to the Migration Policy Institute.
- Second generation — U.S.-born children of immigrants: approximately 47 million, inferred from the combined estimate; not a directly comparable official count.
- All together this is **310.1X** the amount of immigrants to Palestine.

This group, much of whom target Americans, particularly White ethnic Americans, relentlessly participates in never-ending power wars in which they engage in erasure, genocide, hate speech, and even tell Americans to leave their own country in modern forms of the expulsion of natives.

They assault, rape, and enslave the American people. They commit to eugenics campaigns in which they target the American people. They promote religions whose adherents attack White Europeans and Christians such as Islam. They piggyback on movements that cause catastrophic damage to American society. They seek to “disrupt,” “dismantle,” and “decolonize,” ultimately at war with the American people and country.

Have activists been successful in dividing our country? I would say so. Instead of supporting the American people, they have taken everything and then said, “Here you go, world. Americans may suffer in poverty, but you can have their everything.”

Democrats lost. They lost big. They lost their humanity toward the American people. Yet, they did win something. They won an absolutely divided country and a destabilized and declining native White population. They must be so proud of how many modern atrocities and crimes against humanity they supported.

The Democratic Party is not Israel. **No, they are far worse!**

“We’re going to find you!”
