Abis. (alt. Abys). CHUR Coats of Arms, 1887, pp. 7, 33, 43. B. Gerhardt.

Fauci's Mother's Family Crest.
You can't make this up! A snake
eating a child. The name Fauci
is also derived from the Sicilian
word for "sickle." The grim
reaper in charge of the health of
the United States. Go figure!
Straight from the Abis (Abyss).
