

## Calling It as We See It: “The Global Reich”

Modern slavery movement, territorial war, anti-American parade, modern regime, war front.

Primarily targets Americans, creates race wars, lacks the full picture, weaponizes White subjugation for supremacy (lacks humanity), shows disrespect for American culture, and seeks to replace locals with foreigners.

Moves from activism → politics → supremacy movements → “attack/war/hell-realm.”

It reminds of past activist cultures that led to Helter Skelter which twists (OSIRAM) – a perfectly good song by Paul McCartney; It twists human nature.

→ “Cult leader Charles Manson twisted the song's meaning, predicting a "Helter Skelter" *race war* to justify the 1969 murders.”

“Charles Manson’s "Helter Skelter" was an apocalyptic, racist theory that a pending, brutal race war between Black and White Americans would result in Manson rising to power. Manson believed the Beatles' *White Album* predicted this war, which he aimed to trigger through the 1969 Tate-LaBianca murders, aiming to incite Black radicals to kill white people.”

These “cult-movements” are not to be confused with normal, healthy society or the general public—although the general public is being affected. Not to be confused with normal, well-integrated immigrants who serve in professional roles and are a part of American culture and life—the energy is different!

One seeks to harm Americans; the other supports Americans. One is respectful, kind, and compassionate; the other harbors intolerable hatred and actively participates in revenge politics. It is un-American, actively working to suppress the American voice and replace it with a foreign one, particularly those of Mexico (cartel, gangs, activism cults), Russia and its allies. Targets include Americans, NATO, Poland, Ukraine, and others.

This is not an exercise. This is a real cold war actively targeting “the West,” both from outside and within the United States, as well as other European nations and non-allies.

Nonconforming is helpful—being able to identify bias, racism, cognitive distortions, as well as logical fallacies. Much of these wars are driven by propaganda and “information wavelengths.” Stay below the firestorm and above the racism—participate in humanity. Remain calm, kind, and vigilant. Remember what it means to be American. Remember the American spirit and heart as we navigate these deeply challenging, post-pandemic times.

The Nazis used bird flu to gain momentum in the war. Their efforts and strategies worked because they were passionate and had followers. It is important to get ALL Americans on board with efforts toward human safety during these difficult times. Stop making life harder for public servants and our military.

Support the homeless. Don't do drugs. Keep cartels out of American territory. Don't be afraid to call ICE—they are actively fighting human trafficking, a multibillion-dollar criminal enterprise that seeks to steal and exploit children. It is no joke. It is real—modern human slavery, a human holocaust, with innocent children, youth and college-aged students being targeted the most.

Stay attuned to people with good spirits, or bad spirits, no matter who they are, where they grew up in the U.S., or their politics. This is not about left or right—it is about our shared humanity and our ability to remain free from violence, abuse, and harm. *It is about human survival.* It is about creating spaces of peace, well-being, and healing. It is about navigating all facets of conflict and understanding what it means to be American as we face potential future paths of war.

Be the light, not the dark, and focus on humanity above all else. Give authority back to the American people. Comfort and be there for immigrants who have chosen to make America their forever home.

And most important—take no sh\*t. **This country we will defend.**
