We are not the communist's "Colossus of the North."

Right?

If you made it this far!

We are no colossus of any communist party!

We are truly original and one of a kind, with no changed meaning!

Its original champion had passed, but he and the French people gave it to US!

La Liberté éclairant le monde

Liberty Enlightening the World.

Liberty for US. The French. The Americans. After many years of wars.

A symbol of our independence, our freedom, and a reminder of the many years of forced colonialism and slavery experienced by the original peoples of this land.

It meant freedom.

We are not the Colossus of the Communists!

We are the French of the North.
