

The Story of OZIRAH

OZIRAH is the Ocean Goddess, dwelling in the depths of the sea where she feels most free. Though she loves the ocean's embrace, there are times she returns to the shore. Yet, on land, she finds only cruelty—humans reaching for her, trying to harm her, grasping at her beauty and power. The sea, with its endless tides and protective depths, is her sanctuary, while the shore is a place of danger and betrayal.

Today's society is deeply unhealthy. Violence, abuse, slavery, and war still linger in the human experience, creating an atmosphere heavy with fear and mistrust. These collective wounds feed into rising mental health struggles, leaving many people burdened by pain they did not create. Yet, even within this brokenness, there remains a powerful opportunity. We can choose to evolve the way we communicate — to speak with honesty, listen with compassion, and build trust where distrust has taken root. This, above all, is the goal worth striving toward now: transforming the way we relate to one another so that healing, not harm, becomes the foundation of our shared future.

Freedom for OZIRAH & all.
