

# Grand Assault Front

## Not Protests, Street Front

These are not protests, they are thug fronts and street wars. Not only are they thug wars, but they threaten dissenters, now labeled “snitches.” They aim to intimidate through violent threat. They aid smugglers, traffickers, and underground treason movements against the American people.

They serve as a crime against humanity and a cold war movement.

This is a hostile movement that takes aim at the American people.

This is why we stand on the side of the United States and our officers as they serve and maintain peace. Every day there is a new stabbing, a new violent shootout. A life is lost. The gang warfare being perpetuated by this *violent front* is out of control.

Pull your kids, often ages 18–35 and within trafficking age, out of the activist arena. It is a culture of voyeurism, trafficking, intolerance, racism, hate crimes, cult psychology, gangs, foreign paramilitary, and criminal assemblies.

These are not protests, but recruiting arenas for gangs and street warfare.

We remember when life was simpler in the United States, when communities were more united. Today, crime is out of control. We want our streets back and our innocence back so that we can raise our children in safety and our families can live in peace.

These are not protests of peace, but of cold warfare and gang violence.

Protests are not meant to be opportunities for gang assemblies, mafia, or cartel violence. Protests are not meant to aid foreign enemies. The “activists” are not only targeting each other, but they are targeting innocent Americans. They are no longer “activist” culture, or “BLM,” or “Chicanx”; they are a threat to American safety and sovereignty. They are the front line that threatens our national security.

Americans were a healthier culture before the pandemic. Today, we see street war, not a movement, but a criminal succession.

**A Message:** Please get off our streets and leave our people alone so that Americans can live in peace.
