

## **Case Summary**

**It was OSIRAM**

**vs.**

**OZIRAH**

It was marked by shadiness, manipulation, distortion, discrimination, deception, predatory behaviors, domination tactics, triangulation, envy, blame shifting, and selective favoritism. It involved smearing and social politics, followed by replacement, harm, and taking.

Across the board.

It also revealed the other side, vulnerability, access, naivety, trust, generosity, kindness, integrity, and a lack of awareness, eventually giving way to retaliation.

## **Steps Forward**

Prepare military veterans and members of the public, especially vulnerable citizens and young girls, to better protect themselves. Emphasize securing and safeguarding one's life, independence, maintaining thorough and organized records, establishing healthy boundaries, and understanding how to identify, and retain qualified legal counsel.
