

DSA

This is the same political arena promoting a Third Red Scare, Chinese communism, globalism, and "feminism," while many of its allies have promoted doxing military personnel and police officers, engaged in voyeurism, online rage baiting that fuels genocidal hate speech, targeted and stalked individuals, politically trafficked women, and simultaneously promoted both Israel and Palestine—anything but America.

This group openly targets Christians on their page by what they call “religious socialism.” They are two steps ahead and three steps behind. A childish, foolish and “suicidal” campaign. Until they learn to separate themselves from mob behavior and cult-like dynamics, they will continue to run their train into the ground. Their actions are very hurtful to Americans and, rather than serving as a catalyst for positive change, they promote destabilization and contribute to modern Cold War.
