

Response To “Bend the Arc” or “Welcoming America” Campaigns

You’ve heard of Sanctuary Cities, but have you heard of “Welcoming America?” David Lubell, a self-described Jewish American, created the organization in 2009 and expanded the concept nationally, working with the Obama administration in 2014. He stated, “We’re immigrants, we’re refugees.” He grew up outside Philly. For some reason, Concord, NH, became its own hub, an Islamic and Jewish “migrant fort,” if you will. The homeless population doubled since 2019. “What happened!?” I said, two years after moving back. It’s a “flip,” happening all over the USA, in a city near you. Notice any patterns? Our culture is being “redesigned,” by no mistake, either. I couldn’t even enjoy a heritage community without enduring Jewish politics. <http://frenchamerican.org>

Many of us kids were kind of hoping we’d grow up to enjoy our communities. Not forced assimilation to violent globalism, “diversity,” (BLM attacks), and harms against our long-established and safe communities. It’s a crime against humanity, a territorial war painted as a “resettlement,” and the Jewish Bund, “Bending the Arc” -no less. It’s a slow progression to American genocide. They want us to think it’s positive, to replace you.
