

Letter to Representatives

Why are foreign cartels and mafias taking over our farmlands? Why is the radical left so supportive of foreign communism? Why are politicians ignoring the need to combat modern exploitation and trafficking? Why are so many within our borders at war with the American people?

We cannot allow the gaslighting of our communities any longer. It has become evident that immigrants and others are being exploited and forced into labor in our communities, and the trust of the American people has been breached. Psychological warfare campaigns must stop.

Our population cannot be replaced by weaponized mass migration, foreigners or foreign policy. They cannot be victimized by foreign enemies who exploit American politics. Our communities cannot be divided and victimized by modern forms of warfare. Immigrant communities cannot be overworked, exploited, and isolated while workers are forced to work overtime and paid less than the minimum wage by “false protectors.”

Most importantly, Americans must have their home front restored from enduring war to peacetime. Americans must be offered these jobs first, as required by law. There should be no visa overstays, absolutely no smuggling by corrupted farmers, and no lying or psychological warfare campaigns against honest Americans who do the right thing for the American people and others. Fair wages must be guaranteed to all workers.

Please help us end modern exploitation, slavery and the war against the American people. No more fourth generational war. Please support these actions.
