November 25, 2023

### **New Cat Outreach Program in The Works**

*Another Member of Our Family is Gone. She  
May Have Been Small, But Sometimes Cats  
Can Mean the World to Us.*

**Cincinnati, Ohio, November 25, 2023**

Earlier this month we announced a new wildlife pond known as the Anthony Beckham Memorial Wildlife Pond, which is in memory of a member of our team. Now we have another announcement, this time it is before we were originally going to make it.

For several months, a stray cat program has been in the works as a part of the center. It was a major part of the lives of our team because of the adorable rescue cat that called our team her family. Tinkerbelle Beckham was a female tuxedo who loved her cricket and moth hunting, as well as her treats and her mom and dad.

On Thanksgiving Day, November 23, Tinkerbelle suddenly was stricken with an undetectable blood clot that made its way to her hind legs. Her prognosis was grim at best, and her mom and dad made the decision to give her peace and humanely end her pain and fear. Her final moments were with her mom petting her head and her dad petting her just like they always did.

Now, in memory of this amazing and precious 2.5-year-old member of our family passing on, we find ourselves ready to announce our outreach program. It will follow in her footsteps and will be called Stinks Stray Cat Outreach. Stink being one of her many affectionate nicknames.

We are accepting donations, sponsorships, and other resources (including your input) as we move forward with the next steps in the process. For more information, please visit <https://cogarwildlifememorial.org>.
