

NEW! SWITCH Way WRAP KIT

Kit includes 2 skeins of sport, one skein of unicorn, and shawl pattern. This wrap falls neatly into the category of non-boring, mindless knitting. At just about the point you feel bored with garter stitch, you switch to eyelets, and after working with just one color becomes monotonous, you go back to stripes. Switching between sections, before you know it you've got a big squishy wrap that will quickly become your go-to chill chaser. **998 yds**
