MADE FOR BRITISH OUTDOOR LIVING

Comfort in every season

RTD BLINDS
MADE TO MEASURE FOR YOU

Our Pergolas

Rain or shine, this award-winning collection transforms a patio into a space worth gathering in. Sleek, considered and engineered for changing British weather, each pergola is available in a range of sizes and finishes so the right fit for your garden is closer than you think.

[Explore the collection](#)

Compare Pergola Models

The collection includes four distinct models, each with its own roof style, materials, spans and features. Compare Aura, Atlas, Atlas Pro and Horizon to choose the right balance of size, control and shelter for your space.

UV and fade resistance comes as standard, alongside protective powder coating for long-lasting performance in changing British weather.

CARBON-NEUTRAL PRODUCTION

Manufactured through a carbon-neutral process, with packaging made from certified recycled plastic and no single-use plastics.

Compare the pergola range

Compare roof style, construction, sizes, controls and weather performance at a glance.

Atlas Pergola

Our best-selling pergola combines a premium powder-coated aluminium frame with the widest accessory range in the collection. Double-skin tilting louvres let you balance sunshine, shade and shelter, while the built-in drainage system channels rainwater through the frame. Its broad size range gives you freedom to tailor the space around your home.

Key features

- 5-year limited warranty
- TIGER Drylac powder coating
- Built-in drainage system
- Double-skin aluminium louvres
- Largest compatible accessory range

ATLAS ENGINEERING

Built-in drainage

The award-winning concealed system moves rainwater through the structure instead of allowing it to pool overhead. Close the louvres and the protected space below remains practical in changing weather.

01

Closed aluminium louvres collect rainfall.

02

U-shaped channels guide water into the frame.

03

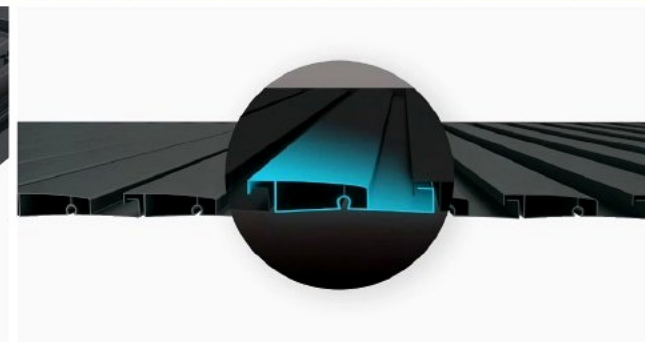

Concealed routes carry it down the hollow legs.

04

Water is released neatly at ground level.

DESIGNED TO KEEP THE SPACE BELOW DRIER

Drainage stays concealed within the clean architectural frame.

Atlas 6.0m x 3.0m (1+4+1)

NEW

Atlas 6.0m x 3.0m (2+4)

Atlas Pro Pergola

Atlas Pro takes Atlas aluminium engineering further with motorised roof louvres and integrated RGBW LED lighting. Adjust the roof, brightness and colour from the supplied remote or app, making it easy to react to changing weather or set the atmosphere after dark. It is the most advanced model in the collection.

Key features

- 5-year limited warranty
- App and remote-controlled louvres
- Integrated RGBW LED lighting
- TIGER Drylac powder coating
- Built-in drainage system
- Double-skin aluminium louvres

COMPATIBLE ACCESSORIES

Selected side panels and screens | integrated lighting | heaters

AVAILABLE SIZES

3.0 x 3.0m

4.0 x 3.0m

6.0 x 3.0m

COLOURS: GREY

ATLAS PRO

Control at your fingertips

The Atlas Pro combines motorised roof louvres with integrated RGBW lighting. Use the supplied remote or the app to react quickly when the weather changes, adjust privacy and set the atmosphere after dark.

Lighting and control

- App and remote-controlled roof louvres
- Multiple colour modes and combinations
- Adjustable LED brightness
- Four static colour options

COMFORT, PRIVACY, AMBIENCE

One integrated system designed for effortless outdoor living.

Aura Pergola

Precision-engineered for year-round outdoor living, Aura uses a galvanised steel frame and roof louvres protected against UV, fading and rust. The manually operated louvres move smoothly from open sunlight to dependable shade and shelter. A practical size range makes Aura a strong choice for patios, dining areas and compact gardens.

Key features

- 2-year limited warranty
- TIGER Drylac powder coating
- Built-in drainage system
- Compatible with selected privacy screens and fixed louvred panels

COMPATIBLE ACCESSORIES

Textile privacy screens: 2.4m, 3.0m, 4.0m | fixed louvre side wall: 1.0m

AVAILABLE SIZES

2.4 x 3.0m

3.0 x 3.0m

4.0 x 3.0m

5.0 x 3.0m

6.0 x 3.0m

COLOURS: GREY

Horizon

Reliable year-round shelter with a fixed water-shedding roof, a powder-coated aluminium framework and a calm Grey & Pebble finish.

All-Season Durability

Engineered for exceptional weather resistance.

- High-wind rating certification
- UV-resistant, fade-resistant materials
- Water-shedding fixed-roof design
- Tested for snow-load capacity

Versatile Size Range

A graduated range for different outdoor spaces.

- 3.0 x 3.0m for compact spaces
- 4.0 x 3.0m for mid-sized patios
- 5.0 x 3.0m for entertaining
- 6.0 x 3.0m for maximum coverage

Contemporary Aesthetics

Neutral tones complement modern architecture.

- Powder-coated aluminium framework
- Designer-selected Grey & Pebble
- Clean lines and minimal detailing
- Easy to pair with garden furniture

Installation Flexibility

Thoughtful engineering supports efficient fitting.

- Pre-drilled connection points
- Comprehensive installation guidance
- Reduced unique component count
- Standard fixing-system compatibility

RTD BLINDS
MADE TO MEASURE FOR YOU

DESIGN THE SPACE AROUND YOU

Pergola accessories

Add privacy, shelter, warmth and light. From sliding walls and screens to heaters and smart lighting, the Atlas accessory collection turns a pergola into a tailored outdoor room.

MIX, MATCH AND MAKE IT YOURS

Atlas Shuttered Louvre Sliding Doors

Open the sides to welcome sunshine, or slide them closed for greater privacy and shelter from wind, rain and snow. The aluminium louvres tilt independently, helping you fine-tune light and airflow without losing the clean architectural look. Use one run or combine panels to shape a more enclosed outdoor room.

Why choose it

- Smooth sliding panels
- Tilting aluminium louvres
- Privacy and weather protection

SPECIFICATIONS

Aluminium construction | Sliding and tilting operation | Atlas fitment

AVAILABLE SIZES

3.0m | 3.6m | 4.0m

COLOURS: GREY | PEBBLE

Atlas Textile Privacy Screen

A retractable textile screen adds privacy and shade while improving protection from the elements. Pull it down when low sun, wind or neighbouring views become intrusive, then retract it neatly when you want the pergola fully open. It is a flexible choice when you want shelter without a permanent solid wall.

Why choose it

- Retractable design
- Extra shade and privacy
- Additional wind and weather protection

SPECIFICATIONS

Retractable textile | Manual operation | Privacy, shade and wind protection

AVAILABLE SIZES

2.4m | 2.6m | 3.0m | 3.6m | 4.0m

COLOURS: GREY

Atlas Glass Sliding Door System

Designed for Atlas pergolas, toughened glass, a slim aluminium frame and a smooth sliding action create a sleek, sheltered extension of the home. The clear panels reduce exposure to wind and rain without closing off garden views or natural light. Slide the doors back easily when you want a more open layout.

Why choose it

- Toughened safety glass
- Slim aluminium frame
- Smooth open-and-close mechanism

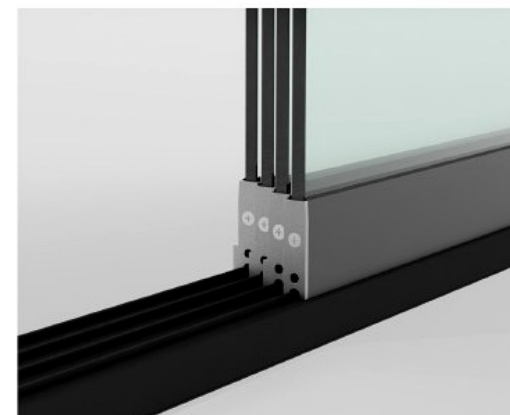

SPECIFICATIONS

Toughened glass | Slim aluminium tracks | Smooth sliding action

AVAILABLE SIZES

3.0m | 3.6m | 4.0m

COLOURS: GREY | PEBBLE

Atlas Shuttered Louvre Side Panel

Divided into two independently adjustable sections, this panel lets you close the lower half for privacy while leaving the upper half open for natural light. Tilt both sections to respond to the sun throughout the day, or combine several panels to create a more private corner without building a solid wall.

Why choose it

- Tilting aluminium louvres
- Two independently adjustable sections
- Single panels or packs of two or three

SPECIFICATIONS

Two independently adjustable sections | Powder-coated aluminium louvres

AVAILABLE SIZES

1.0m | 1.2m | 1.3m

COLOURS: GREY | PEBBLE

Atlas Vertical Louvre Side Panel

Fixed vertical louvres create a strong contemporary edge while softening views into the pergola. Each panel attaches securely to the Atlas frame and the ground using the fixings supplied. Install a single panel as an accent or group several together for a stronger privacy screen.

Why choose it

- Contemporary vertical profile
- Fixed to frame and ground
- Single panels or packs of two or three

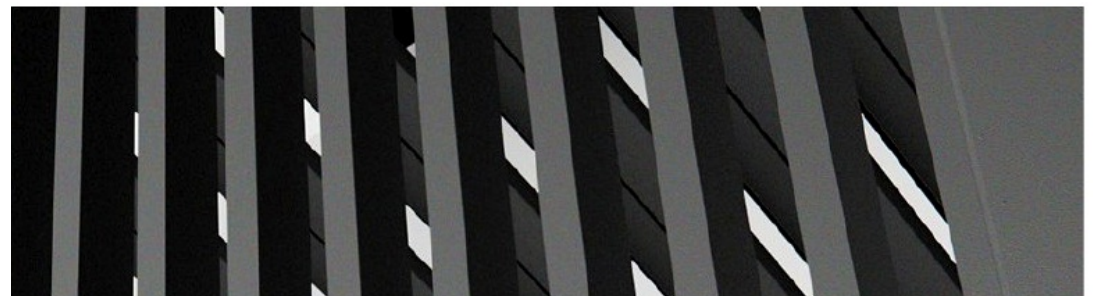

SPECIFICATIONS

Fixed vertical aluminium louvres | Frame and ground fixing

AVAILABLE SIZES

1.0m | 1.2m | 1.3m

COLOURS: GREY

Atlas Static Louvre Side Panel

Fixed louvres provide shade, reduce wind exposure and limit views into the pergola while still allowing natural light to filter through. Their angled profile creates a comfortable sense of enclosure without making the space feel dark or boxed in. Panels can be used individually or grouped along one side.

Why choose it

- Extra privacy and shade
- Reduced wind exposure
- Single panels or packs of two or three

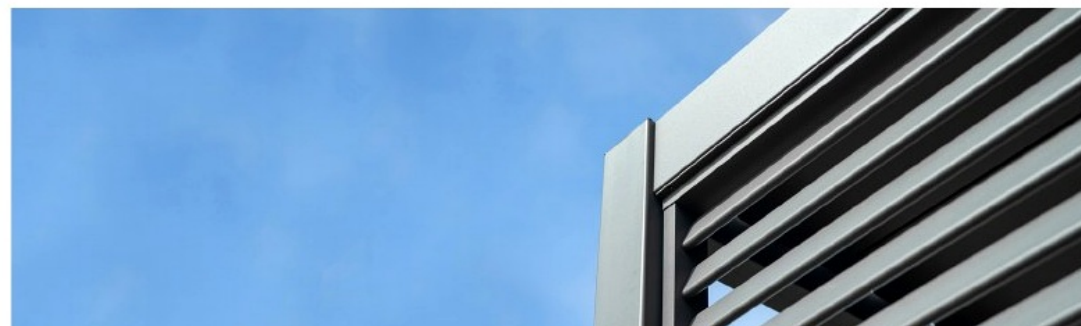

SPECIFICATIONS

Fixed angled louvres | Single panels or coordinated multi-panel packs

AVAILABLE SIZES

1.0m | 1.2m | 1.3m

COLOURS: GREY | PEBBLE

Atlas Static Side Wall Combinations

Combine cavity wall panels and fixed louvres to create defined walkways, feature zones or a complete premium wall. Different arrangements let you balance privacy with filtered daylight. Cavity panels can also provide a practical structure for TVs, speakers or decorative lighting.

Why choose it

- Multiple panel combinations
- Structure for mounting entertainment or lighting
- Designed for the Atlas range

SPECIFICATIONS

Modular cavity and louvre panels | Suitable for mounted features

AVAILABLE SIZES

3.0m | 4.0m | single cavity wall panel

COLOURS: GREY | PEBBLE | WOODLOOK

Atlas Solid Insulated Side Panel

An aluminium framework with a honeycomb centre adds privacy, weather protection and a useful thermal insulation layer. The solid finish blocks direct views and reduces exposure from the prevailing wind. It is ideal for creating a more enclosed outdoor room or protecting one side of a seating area.

Why choose it

- Honeycomb insulation core
- Durable weather-resistant aluminium
- Single panels or packs of two or three

SPECIFICATIONS

Aluminium skins | Honeycomb core | Weather-resistant finish

AVAILABLE SIZES

1.0m | 1.2m | 1.3m

COLOURS: GREY | PEBBLE

Atlas Pergola LED Light Beam

A bright white linear light extends evenings under your Atlas pergola and provides even illumination across dining or seating areas. Use the remote to switch the beam on or off and move between brighter and dimmer settings. The slim beam integrates neatly with the frame for a clean finish.

Why choose it

- Bright and dim light modes
- Easy-to-use remote control
- Bright white light colour

SPECIFICATIONS

Remote controlled | Bright and dim modes | Integrated white light

AVAILABLE SIZES

3.0m | 3.6m | 4.0m

COLOURS: GREY FRAME | PEBBLE FRAME

RGBIC smart light kit

Choose a crisp white light for everyday use or add colour-changing effects for entertaining. The RGBIC smart light kit can be adjusted from the remote or through the Tuya Smart app.

Smart light features

- Tuya Smart app connectivity
- Easy-to-use remote control
- Multiple solid colours and combinations
- Adjustable brightness and colour

EXTEND THE EVENING

Lighting designed to make the pergola usable long after sunset.

Heating options

Hestia Pergola Heater

Instant infrared warmth helps keep temperatures up and conversations flowing into the evening.

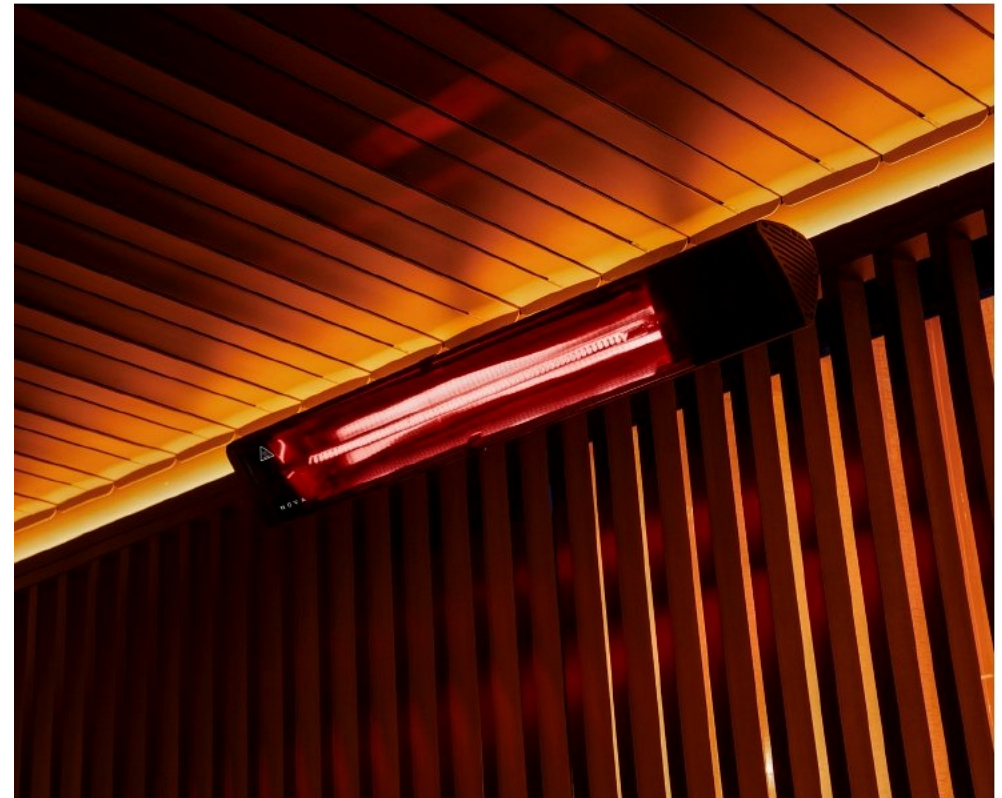

- 2kW infrared heat
- Remote control included

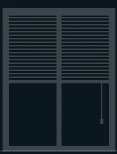

Zesti Pergola Heater

Smoked anti-glare thermo glass and four heat settings provide more control with a discreet finish.

- Available in 2kW and 3kW
- Carbon-fibre heating element
- Anti-glare thermo glass panel
- Remote control included
