

Dear His Majesty King Charles III of the United Kingdom and ALL of His Majesty's subjects.

I don't intend for this communication to be classified, confidential or otherwise withheld from true Allies of the Constitutional Republic of the United States of America as written and strictly defined by the Constitutions of my Country.

The Medicare handbook for 2023 is an undeniable Confession of High Treason by the DHHS and DEA as well as associated religious zealots.

Those same entities have demanded your subjects pay them tribute; therefore if you allow the payment of those fines by your tax-base: such as Mallinckrodt (we really need the ethical pharmaceutical companies to counter this insurgency): your capitulating to a foreign power that is an enemy of your true Allies the American People.

Those fines were not even contested in public Court despite being undeniably without legal basis. This means only that some major form of violent coercion and Mafia style tactics were used against your subjects under color of law by a Rebellion that has seized almost the whole of my country without international complaint or protest and worse yet it seems to have spread beyond our shores to infect every corner of the World.

If you watched the news you will know that we didn't go down quietly and have been forced into resorting to our most last resort constitutional rights required for "the security of the free state." We have not capitulated completely yet but the facts are glaringly obvious about the coming bloodshed that the people claiming to be our gods are demanding.

First and foremost I beg you to stand up for your Sovereignty and Peoples. It is never acceptable for you to capitulate to anyone at all and you know that. It is especially insulting for it to be derived from here: for reasons that are obvious.

I implore you to Declare your Independence from the Rebel Alliance of the DHHS and DEA sourced from the United States but without our consent or blessings.

The above is not fitting your website's definition of communication that is not warranting a response as you are not asked to interfere with foreign policies only to assert your own rights as an independent Kingdom and Commonwealth of Freedom and Liberty as you self determine. Frankly my people need to see you do that to be inspired in these horrific times.

The following is needed to know information, and indeterminate if you want to invoke that privilege stated.

Greetings and Salutations my name is Ryan Thomas Hock and I am writing you out of severe desperation for the soul of my country that is under the rule of a violent rebellion composed of the Department of Health and Human Services (DHHS) and the Drug Enforcement Agency (DEA) who seemingly has made an alliance with the Taliban (my country is a Empire of the

Constitutional Republic and as an Empire has never ever in history that I know of abandoned military bases in any location occupied. They did not make a peace treaty with the Taliban but an alliance that is fitting the cultural similarities of those three entities of the religion married to the state that is defined by Christianity Judaism and Islam by the practices of self mutilation such as Antipsychotics and mood stabilizers Azo dyes etc tactics of the ongoing rebel alliance activities (self mutilation=Baal) and the worship of Moloch defined by human sacrifice particularly of children meaning the legally vulnerable such as the elderly and disabled as well as the illegally incarcerated and tortured for amusement masses not guilty of any constitutionally valid crime(s) as clearly understood and defined by our supreme laws including the (4th/18th/21st Amendments) that needs no further explanation other than to read them.

That law is set by constitutional precedent so therefore no higher precedent exists to override it meaning not even our supreme court has the authority to claim the government is valid in it's actions against us that truthfully cumulate to be the undeniable reality of being at war as only the aggressor has a choice in such; we have been drafted into the reality of "Join or Die" that is required by having been tread on to the level of inability to survive (no option for not fighting exists when we are being illegally arrested in massive numbers without even accusation of any form of law breaking at all and being tortured maimed and murdered without justification).

The included documents are worded in the manner my constitutions prescribe and obviously are not normally appropriate things to say or define yourself as. I have tried too many other methods. The Medicare handbook planned purges are set to begin before you even receive this letter.

The Wisconsin Constitution that I have leveraged to avoid my Family's curse (mother's mother's paternal ancestor is James Wilson one of the initial Supreme Court Justices who signed the declaration of Independence and Constitution of the United States of America and Demanded the provision forbidding passage of "laws impairing the Obligations of contracts." (He died in debtors' prison).

It's actually very taboo here to border on using a title of nobility that honestly I'm too far removed from the paternal name to be desiring to cite. However it occurs to me that the fact that I am needing to beg you for my country's soul might hold meaning to you and your family and peoples. Maybe it doesn't but in any case I swore myself to several contracts in the efforts to escape from imprisonment and tortures to be able to even testify against the insurrection.

I petitioned the people directly via handing out copies of the constitution and showing how obviously unconstitutional what is happening is and begging for help in escaping from the DHHS and associated. I swore to do whatever I can to get the Constitutional Republic that is promised us and has never truly been allowed.

I swore to my creditors that the legally responsible parties would be made to pay the debts I was forced to accrue while deprived of the right to work, vote and meaningfully petition my government for redress of grievances. I have been illegally arrested over 11 times in the last

5yrs with lengthy confinements and Lobotomization attempts and actual. I avoided most of the intended brain damage by throwing up their pills, plastic wrapping my tongue when they made me take the dissolvable etc.

Eventually they got me with injections that were impossible to avoid the damages of and my physical health was destroyed in only a few months. I used to regularly run 10-30+ miles for pure enjoyment despite having had Lyme Disease twice and showing one of the most miraculous recoveries on record. I assure you that Antipsychotics are worse than Lyme disease and are without medical value at all.

Obviously I am completely ignorant of your country's degree of tolerating the worship of Baal and Moloch and only able to assume from the fact that your pharmaceutical companies such as Mallinkrott are more ethical than any American based pharmaceutical companies I know of without contest. If you've fallen victim to that religion I can only beg you to save your souls and repent.

I never ever thought I would write a letter to you and your family but the situation demands such. I wish I could have had some positive reason to do so; like business or science or something else that I had intended to dedicate my life to.

I know you will do what you consider right and best. Currently I am required to stay here until the court cases are through and my debts paid lest I risk imprisonment for debts that is the curse of being obligated to contracts that have had laws made to impede those obligations. I fear the possibility of being utterly negated again.

I failed to rewrite Medicare before they make it without standard feasibility. I'm only partially describing what must happen as there are mechanisms upon mechanisms to reward corruption. But they start the cullings after open enrollment ends; so is an incomplete solution set.

I had a real dream of a pair of corporations Environmentally Vigilant Intelligent Logistics (synthetic crude oil and soil amendment biochar plan) and Electrically Variable Integrated Life (mass producible quick connect replaceable human parts and adjunct organs meant to obsolete the Murder Trades including the very traitors who tried numerous times to murder me in ithospital settings).

I hope that goal is not impossible now. Many provisions planned have been made out of reach now. Perhaps in the future I might send something more inspirational that I actually want to write regarding the real desires and goals I have; rather than simply the prerequisites of the need for rule of law that I understand and consent to by the contract of my Constitutions.

Sincerely,

Ryan Thomas Hock
