

So I guess with voting rights you can vote on things (place a mark over the line to choose).

I do not as of now (10/08/2022 2:54 AM /0254) have a plan for how or where you are to submit this ballot. For the mean time you may desire to increase the number of the electorate by copying this ballot unfilled out and supporting documents and distributing. Will make an effort to update <https://www.EVIL.HEALTH> to include as promised to the Federal Government and to reduce paper requirements.

Note: I am generating a demand for the transition to the more efficient hemp-based paper such that the red pine plantations are available as a resource for Environmentally Vigilant Intelligent Logistics
