Seemingly inadvertently these plans might be applicable as partially Fulfilling/Prophesied by the
WI Constitution Article IV Section 34: Continuity of Civil Government

The legislature, in order to ensure continuity of state and local governmental operations in periods of emergency resulting from enemy action in the form of attack, shall (1) forthwith provide for prompt and temporary succession to the powers and duties of public offices, of whatever nature and whether filed by election or appointment, the incumbents of which may become unavailable for carrying on the powers and duties of such offices, and (2): *adopt such other measures as may be necessary and proper to for attaining the objectives of this section*

I **Ryan Thomas Hock** have *de facto* been appointed by the WI Legislature to the Office of: Conscripted Constitutional Attorney and

Conscripted 2023 Medicare/Medicaid policies Dictator (Authority to Dictate Compliance with The Constitutions of USA)

This appointment is by Conscripted and made official under the WI Constitutional Definitions By means of legislating a Bill of Attainder (Treason) that was used against me (with intent to Kill) that I have barely managed to survive let alone retain the competency to Fight Back in my own defense and forcing enrollment in Medicare/Medicaid/SSDI. Then via Corruption Mechanisms Included in Medicare/Medicaid attempted to murder me numerous times more (the DHHS attempted to corrupt SSDI against me by case manager attempt to force application for SSDI under “unspecified psychosis” so as to be able to force acceptance of a “Representative Payee” who would in turn be able to decide where I live (would have been a group home w/forced poisons, ineligibility for food-share and rent set to the value of SSDI/SSI such that negates the risk of accruing monetary resources for escape from Slavery) Medicare/Medicaid policies such as Paying for/allowing Involuntary Commitment to Inpatient Psychiatric Wards in combination with Recently Noticed (and seemingly very new) Privacy policies of both private hospitals (often dictated for them in part via things like HIPPA) and government institutions including the Department of Health and Human Services (DHHS) have as of at least 2022 been updated to include the provision for the disclosure of Private Health Information (including identity information = your blood type and name possibly w/address and more) to Organ Procurement Entities Without the Patient's Consent or even being informed of said disclosure and while STILL ALIVE!

✗ **Enemy Action in the Form of Attack:**

- The Execution of Bill(s) of Attainder such as Ch.51 WI Statutes is the Glaringly Obvious Example, and is an outright Act of War/ Violent and Open Insurrection/Rebellion against the Constitutional Republic and Every State/Member of the Union.
- In the Relevant Time-Frames: numerous compounding Enemy Attacks occurred and were covered-up/colluded with via actions taken by government officials/ associated (using government resources and authorities)
- Such as: The Domestic Terrorism of Adulteration of Milwaukee Municipal Tap Water with “Orthophosphates” that Break-down into OrganoPhosphates (things like and including DDT and related toxic to Human Health insecticides/Nerve(War) gases: refer to court filings for accounting/documentation of the relevant events/facts and how I circulated records of the evidence I procured; extensively and quickly under extreme physical distress/toxicological emergency: to every conceivable faction of society with any capacity to respond to what was a major Public Health Emergency Resulting from: Openly Admitted Acts of Domestic Terrorism/Treason (They admitted in writing to purposefully adding the Orthophosphates as a “pipe-coating” on official publications); therefore the: Testimony of 2 witnesses to the same overt act requirement to convict of Treason is not required as they have freely and openly made official Confession of their Act of War against The People, State, Nation and Humanity (just as notarized Affidavits are equivalent to testimony supplied in person in court; government publications are expected to be precise in identifying the author(s)/confessor(s) and are therefore acceptable as equivalent to notarized confession in terms of verifying that the statement is indeed the words of the person attributed with saying them) **The Milwaukee Municipal Water Company has Confessed** and left undeniable Evidence of Act(s) of Constitutionally Defined Treason constituting a “enemy attack:” against the Peoples and Citizens of the State of Wisconsin and by extension the Whole of the Union and our Treaty-Bound International Allies (This is easily also defined as a “crime against humanity” and can legally be cited to elicit international aid in the most risky of manners, and most warned against form of “foreign entanglement:” **military intervention.**

- “God-Willing the acting USA/WI governments will Stand Tall and capitulate ONLY to the Constitutions including the “Shall not be Infringed” provision and DEMAND for the “Security of The Free State”= Recognize/permit/provide reasonable mechanisms for access to the Property {includes firearms including registered so as to deter government from ordering/enforcing unconstitutional and “Ways and Means” needed for “We the People” to do our “Sworn Duty” to respond to these and any and all other: “Call(s) to Arms of the Militias” (we are made to pledge our allegiance to the Flag and *the Constitution of the United States of America as a condition of our mandated public education meant to prepare us for our Birth, Blood & Sweat Right & Sacred Duty to Vote and to Vote meaningfully in our own best interests as self-determined. Without this the word “Republic” holds no meaning other than “too ashamed to call ourselves what we really are {in this situation a Theocracy with ruling officials appointed not elected}

- ✗ **It is worth noting that this occurrence of Domestic Terrorism of Intentionally Poisoned Tap Water** (and residential atmosphere b/c Out-gassed the equivalent of “War Gases”) roughly correlated to the widely reported (typically in the negative context of looting/rioting {not quite 1st protected; dependent upon what is looted/destroyed could be rational/well-regulated 2nd protected (self-defense/security of a free state) **correlates directly to incidents of large-scale public and often armed demonstrations in the inner city of Milwaukee** (Which is a Constitutionally Protected Right and Duty so long as done in a “Well-Regulated {Adherent to the Constitution}” Manner)

There is zero ethical excuse for the aforementioned disclosures to “Organ Procurement Entities” of the criteria for organ donation matching of the STILL LIVING (previously might have been a covert policy included in the policies of the Social Security Administration of automatically enrolling applicants in “Computer Matching Programs” to determine eligibility for and implied to also mean involuntary enrollment in: I specifically Prohibited the Including myself in “computer matching programs” when I applied for SSDI under the Coercion of Ch.51 Bill of Attainder/ law impairing the Obligations of Contracts induced Poverty. My rational then included the possibility of being targeted for my higher than average “Body-Price” but was primarily motivated by the concern of being matched to some form of involuntary drug addiction treatment and/or deterrence program

Example of deterrence programs feared: the adulteration of dextroamphetamine Sulfate (Dexedrine) pills with [High] of Red-40 Neurotoxin such that the effects of the red-40 were more noticeable than the dexedrine making it useless medically and causing a medical need for Gabamergenic drugs (red-40=excitotoxicity, std clinical treatment = benzodiazapines with the only available to the people treatment being illicit opiates).

2023 Medicare and You Guide has clearly declared it's intent to target Benzodiazapines in the same manner used to utterly destroy the pharmaceutical opioid industries (causing the Fentanyl/ Opioid Epidemic). Heroin and Fentanyl are the available to the vast majority and when needed antidotes to excitotoxicity (ethanol only works “on paper”) as of 2022: as benzodiazapines are now next to impossible to be prescribed; especially if having another schedule II substance prescribed (openly admitted reason to deny benzodiazapines to me when facing an excitotoxicity crisis from red-40 laced Dexedrine). If benzodiazapines can be obtained they are in the vast majority of cases themselves heavily laced with Azo dye-Class neurotoxin/excitotoxin adulterants = a planned addiction policy wherein-which using the medication causes toxicological symptoms that last longer than the real medication portion therefore resulting in a situation where the treatment causes the disease and cumulatively. (only known safe to use pharmaceutical benzodiazapine available at all is/was the 5mg (lowest dose pill of diazepam manufactured that I know of and generally only given to children requiring adults to specifically demand) Teva brand pills of diazepam).

Opium used to be available prior to the COVID-19 era but seems to have disappeared along with the Primarily Elderly Women who as Retired and/or Disabled persons with chronic pain who used their “Victory Gardens” to generate the **Domestic Supply of Opium** that was available in the Black Market. I suspect targeting for negation of Civil Rights and access to Community Resources via Medicare/Medicaid mechanisms of corruption along with use of COVID-19 hospitalization strategies to remove from them access to the support network of illicit drug dealers (“isolation to facilitate abuse”) who saved the majority from COVID-19 and kept them/us Work-capable and **Essential**.

These missing and illegally incarcerated Militia Members are in immediate need of rescue and we are bound by sacred duty to “Leave no-one Behind” (mechanism of their capture by the enemy is usually Nursing Home but also psych wards etc) (typically given the entire estate and sum total of property with financial value as payment for this “Life-Sentence” most often forced into by relatives who have the victim declared incompetent and then made to be literally incompetent via deprivations of real medicine (do you really think We The People didn't provide resources in exchange for the opium etc?)and forced administration of “Alternatives” such as “Major Tranquilizer class Antipsychotics” advertised to these victims as much needed by them painkillers but most often given by force when coercion/deceit fails (as is likely to fail with this class of the elderly b/c they knew real medicines).

2023 Medicare/Medicaid Dictator Order:

All illicit Drug offenses are Unconstitutional to Prosecute

The 4th amendment right to be secure in our Person(s) obviously includes the rights to manufacture, posses, use and distribute any and all Voluntarily taken Recreational and/or Medical Substance(s). This is along with other Constitutional rights as well as the Declaration of Independence's "Inalienable rights" that includes (but are not limited to): Life, Liberty and the Pursuit of Happiness. All three apply but additionally includes the duty to be "Stewards of the Earth" with Dominion over the "Herbs of the Earth."

This Fact of the Republic was soo glaringly obvious that the Fanatics Responsible for the Great Depression (Prohibitionists) had no other mechanism then Specific (names substance specifically and/or by class: "intoxicating spirits") Amendment to the Federal Constitution. (Regulation of substance use violating the rights of others is permitted/required by lessor legislation such as statute ex impaired driving {not to include punishment for responsible drug-enhanced (amphetamines for example) driving as I find necessary due to Lyme Disease and now also antipsychotic induced disabilities }.

This is set in stone by the Constitutional Precedent Set by the 18th Amendment. The 21st Amendment Further Clarifies that violating constitutional rights by Amendment is a very bad idea. Together the 4th as Clarified by the Constitutional Precedent of the 18th and 21st constitute the Supreme Law of the "Prohibition of Prohibition" that as backed by Constitutional Precedent: is beyond even the Authority of the Federal Supreme Court to declare Unconstitutional or invalid as no higher law(s) or Precedents Exist to Cite: The Constitutional Precedent overrides all Precedents set by court decisions and statutes at all levels that in any way are Contradicting to this strictly defined Supreme Law of These United States of America.

As per Title 18 USC 242

Any Government-level Obstruction of/ Prevention of the "Enjoyment of Government Benefit Programs" (in this refers to illicit drug offenses, family history of illicit drug offenses, and/or being suspected of illicit drug offenses) is Defined as "Deprivation of Rights under Color of Law" {Reading the text of the code makes clear that this is merely a clarification of a type of Treason} when compounded by Kidnapping, maiming and/or results in death the Maximum Punishment is set at Life-Imprisonment and/or the Federal Death Sentence.

Therefore drug offenses are not grounds for the denial of benefits such as Food-Stamps = required drug test rumored to occur in some states as a requirement for benefit payment is not only unconstitutional but potentially also punished by the Federal Death Sentence for legislating (no qualified immunity against Treason even for them), enforcing and/or facilitating this type of Defined as Treason. Fact: Starvation is a Cause of Death that is real and probable to result from such a deprivation of rights (that they like myself were probably forced into in the 1st place via other unconstitutional actions such as bills of attainder ex.) ch 51 WI statutes)

This is obviously a Constitutionally Ordered and Universal Call to Arms/Rally Cry for the Militias: Composed of Patriotic Americans (persons and citizens alike) Nationwide and beyond.

**The Security of the Free State is in Your/Our Hands and
"Uncle Sam Needs You"
In This Our Darkest Hour**
