

Motion for Initiation of Libel Cases

Rally Cry: the Ethical

Military/Militia-Industrial-Pharmaceutical Complex

Prove Eisenhower Right: Be a Force to be reckoned with: aka "To be Wary Of"

Why? Because the WI Constitution States that the: Truth may be submitted as Evidence in Libel Cases

1. Libel of "Big Oil"

1. Azo Dyes are produced by "little chemistry" and "little pharma" (little= aka wouldn't survive independent of government/ what-have you not free market tactics)
2. We the people are seemingly supposed to blame "Big Oil" for the use of it's side products that as far as I can quickly tell have both ethical and unethical uses.
 1. We cannot easily/ethically blame "Big Oil" for the use of a product (ex Aniline which I understand from memory to be a part of the synthesis of benzodiazapines {ex diazepam} but is also appearing to be a key building block for Azo dyes making it difficult to consider "Big Oil" as capable of embargoing the villains without stifling the heroes.

2. Libel of "Big-Pharma"

1. The Replacement with Poisonous AZO dye pills of brands with long histories of ethical and responsible to use products (ex. Opioids, benzodiazapines and finally the most likely to fight back: amphetamines and Cocaine analogs like Ritalin/methylphenadate {probably why we got targeted last/with numerous deprivations of rights to distract and complicate: and now have the burden of saving the whole Fuc@ing World! Because we really are the last 1st if you understand the meaning}
2. The Bill of Attainder/ Special Tax/ Taking of Private Property for deprivation of Public Use/ etc whatever you want to name the ACT OF WAR (Foreign countries were home to ETHICAL Pharma; few if any domestic can stand the Ethical tests equivalent to companies like Mallinkrott (All known to me products were made ethically as in no added intended to be poisons; I had some caveats about the quantities of ibuprofen in their opioids and kidney/liver health which is the real reason I never considered opioids pharmaceuticals as an option for my Lyme disease joint pain, but overall they don't seem to intentionally do anything harmful and as a tax-base for the United Kingdom: is an ACT OF WAR against a DECLARED ALLY = If this gets to His Majesty King Charles the III please stand for your own sovereignty and ORDER them not pay; and if it comes at the cost of the USA market: take a leaf out of our book and SMUGGLE b/c you are not allied with a rebellion against the USA Constitution you are allied with US WE THE PEOPLE) and to a lesser extent Teva (they still dyed some pills but saved non-poisonous versions as options_ Israel an Ally that we committed a verifiable ACT of WAR against by fining TEVA also please be a sovereign nation and refuse that tribute demanded unjustly and only for the worship of your GOD'S most hated ENEMY_self mutilation is Baal and Human Sacrifice is Moloch both the practices and worship so abhorred as to be ordered wiped from the Face of The Earth by Yahweh *{I hope I did not utter that name in vain}*)

3. Libel of Law Enforcement'

1. You cannot have qualified immunity if you break your Oath to the Constitution and you KNOW IT to MEAN THAT YOU/WE ARE NEVER IMMUNE FROM REAL PROSECUTABLE CRIMES so don't cave on {4th/18th/21st + no constitutional Rights Violated/Deprived} you really will need US ALL to Love and Admire your Courage and Loyalty to "Serve and Protect" The People and Our Beloved Constitutions as I know you desire most to be your function.
2. Honestly how much easier would your job be if the people who report real heinous crimes to you, don't get taken under bills of attainder to be lobotomized and made unable to testify? (Yeah reference me and the damned psychiatric religion I am always distracted by)

4. Libel of Elected Officials

1. Your not allowed the Full Electorate: they call Felons ineligible to vote and make non-crimes into felonies.
2. Then the less than elected make Bills of Attainder and other Deprivations of Rights to maintain this unconstitutional system against the "Checks and Balances" meant to truly be "The System that Corrects for Itself"
