Hello Everyone!

It is time once more to produce a new reference guide for the next upcoming season. Our focus moving ahead is bringing in new products along with the usual standbys.

We are excited to introduce AM Leonard Tools and gardening supplies into our inventory along with approximately 200 new varieties and 20 new species listed. Perennials are a much asked for item. We don't stock too many, but we can often find and bring in what you're looking for. One of our goals is your satisfaction. Because we are dealing with a living product, they can and do at times fail for various reasons. Remember to water in dry, hot weather, but don't overwater. A good drink once or twice a week is usually sufficient.

We would like to extend our gratitude to all customers, past, present, and future, for showing us the way forward, with your support, and look forward to assisting you this season!

Sincerely,

Your team at Troyer Tree Farm
